ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building doesn't appear on the 1894, 1902, 1911, 1930, 1939 Sanborn Maps.

Despite being the boyhood home of Walt Disney the appearance of the home has changed since it was occupied by the Disney family, impacting its historic integrity. The National Register of Historic Places has a specific criteria for properties associated with important individuals (Criterion B); this criterion typically requires that the property be associated with the productive life of the individual. So while it could be argued that this property provided an inspiration for Walt Disney's life, he lived elsewhere when he began to produce the body of work we all know him for. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.
Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.
Marceline R-V High School, Composition II Class. Marceline Our Heritage[compiled by] a six-weeks' research-interview project. Marceline, MO: Walsworth Publishing. 1980.
The Magic City, Marceline, Missouri: Diamond Jubilee Celebration, June 29 to July 4, 1963. Marceline, MO: Walsworth Publishing. 1963.

Marceline Golden Jubliee, Inc, Marceline Marching On. Brookfield, MO: Budget-Gazette Publishing Company. 1938.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.731671, -92.942360

This building is located just north of the Marceline City limits on the main highway into Marceline. The property has maintained its rural setting. The drive way has been paved in asphalt.

There are four outbuildings on the property.
1. A wood panel gambrel roof feeder barn with a small hay mow.
2. A wood sided shed that has been painted red; there is a small 1/1 wood window and single door. The side gable roof has rafter tails.
3. Small white wood sided shed with a shed roof and a pair of large swinging doors.
4. Garage with red wood siding and a double size overhead garage door. Then a single door and small window.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This house had a smaller footprint historically; the building has been completely reclad with vinyl siding and expanded to the north. The building no longer appears as it did when it was occupied by the Disney family.

The house has a side gable and has five sections that appear to be constructed at different times. Starting from the south the first and second bays are under the flared porch. The first bay has a single door moving north there is a pair of large six-over-six vinyl hung windows. The next bay is in a recessed portion. The third bay is a projecting window with a multi pane window, moving north there is a single six-over-six vinyl window. Moving north there is a projecting bay that has no openings. Moving north there are two more bays both of which were blank walls without ornamentation.

The southern most bays have two dormers each with six-over-six vinyl windows. There is also a chimney on the end of this bay. There in the portion over the fifth bay has a pair of skylights in the side gable roof.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This property does not appear on the 1894, 1902, 1911, 1930, or the 1939 Sanborn Maps.

This building is a recent (2001) reconstruction. It is therefore not eligible for listing in the National Register of Historic Places.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

https://www.waltdisneymuseum.org/marceline/walts-dreaming-tree-and-barn/ (accessed 4/12/2017)
Sanborn Maps: 1894, 1911, 1930, 1939.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.732783, -92.944203

This building is located in the a large field away from the Disney Boyhood Home. This building is located immediately north of the Marceline city limits along the main highway into Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This buidling was constructed to replicate a barn that once stood here.

The barn faces west. There appears to be three bays. There is a porch on the south elevation that leads into the main barn the porch has a shed roof that meets up with the main side gabled porch. The central bay has a pair of double board and batten wood doors. Moving north there is shed roof portion on the north elevation and attached to that it s a small shed roofed portion with a small fixed six pane window in this portion. There is a small opening in the upper portion of the central portion of the barn.

The barn is used primarily as a commemorative space. Visitors are encouraged to sign the interior of the building.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears on the 1930 & 1939 Sanborn Maps.

The Carnegie Library opened in November 1920 after several years of planning. Edgar P. Madorie of Kansas City was chosen as the architect in 1919. The library was constructed with the financial assistance of the Andrew Carnegie Foundation in the amount of $12,500. The building was constructed in the Classical Revival style. The building has had minimal exterior alterations including those to improve access to the building (a wooden ramp on the east elevation). Some windows may be replacement. The Marceline Carnegie Library may be eligible for the National Register of Historic Places under Criterion C for Architecture due to the Classical Revival styling; additionally the building may be eligible under Criterion A for its association with Education or Social History as a long serving library in the community of Marceline. More research would be needed to consider period of significance and interior integrity.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715840, -92.948519

The library is located off the main commercial street in Marceline. The property is across from Ripley Park and shares the block with a small building adjacent to the railroad tracks.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The Carnegie Library has a symmetrical facade. Starting from the east there is a grouping of three windows in the upper portion of the main elevation. There are two small four-over-one windows with a larger eight-over-one window in the center. Moving west is the main entrance to the building. The entrance is accessible via a rise of concrete steps the entrance is slightly recessed set of double wood doors with large windows in the doors. There is an ionic column on either side of the door that extends the full height of the building. Above the door is a small decorative canopy. Above the door is a wood multi-paned arched window that appears original. The western bay has a grouping of three windows with four-over-one windows on each side of a larger eight-over-one window. The building has a raised parapet around the roofline and a small pedimented portion over the main entrance with a sign "CARNEGIE LIBRARY" below the pediment. The windows in the raised basement mimic those on the main level above. Most windows may be replacements but they match the original configuration.

ARCHITECTURAL/HISTORIC INVENTORY FORM

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears on the 1930 and 1939 Sanborn Maps.

Additional research is required to fully understand the history of the building. It was associated with the Guaker Coal Company at one time.

This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715754, -92.948419

This building is located off the main commercial street in Marceline. The building is located next to the Marceline Carnegie Library and across from the Ripley Park. The small building is located on a larger lot across from the Santa Fe Depot and the railroad tracks.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a small building with two bays the first bay is the entrance is located in the western bay and it is a simple wooden door with a window. The next bay is a single one-over-one wood hung wood window. Both the window and the door appear original. There is a concrete sidewalk that approaches the building from the main sidewalk on California. The building has a hipped roof that has asphalt shingles.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This school was built in 1959 and named for former resident of Marceline Walt Disney. Disney himself visited the school and donated a 1960 Winter Olympics flag pole and artwork for the interior. According to a 1988 report, the basic structure of the school was unchanged when the east end was enlarged c. 1970 to add a counselor's office, speech room, and library. The report includes a list of room assignments current as of 1988. The Annex, a rectangular metal building to the southwest, was built c. 1965 to house areas for remedial reading, math, music, kindergarten, special education, and art. It connects to the school via a connecting roofed walkway.

All of the windows appear to have been replaced since c. 2015; these are much darker than the original windows and alter the overall appearance of the building, thus this, coupled with other potential alterations (such as additions) may make an argument for individual eligibility under architecture difficult. However, the school may be individually eligible under Criterion A for Education; further investigation is warranted to determine if this would be a viable path to listing in the National Register and what an appropriate period of significance would be. This area as a whole lacks the integrity and significance for listing as a historic district.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.713235, -92.943793

A few large metal buildings are located to the southwest and northwest of the school. Further to the northwest is Marceline High School. In front of the primary entrance of the elementary school is a roundabout. Behind the school is a parking lot. Residences are to the north and east.

To the east is a graveled and partially asphalted playground area c. 1960 that should be evaluated as a potential contributing site if the school is determined eligible, though the playground equipment has been upgraded.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a sprawling, flat-roofed brick mid-century modern building with wide overhanging eaves and an irregular footprint. The primary facade, which faces northwest, has four visible bays. All except the second are made up of large expanses of windows. The windows appear to have been replaced c. 2015 and have much darker tinting and muntins than the original windows. What is likely a fifth bay of windows is obscured by a large metal building which abuts but does not appear to be attached to the original elementary building. The second bay holds a recessed double door entry that is also surrounded by dark windows. Extending out from this entrance is a covered walkway. Behind the facade the two story gymnasium is visible.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The 1894 Sanborn map indicates that the S.B. Spraule's Electric Light Plant was located here but that it was not running. An L-shaped building is noted on this spot with a "Dynamo Rm." The 1902 map notes a S. M. Pierce Electric Light Plant operating here. By 1911 the footprint of the building appears to have been altered with a long rear addition and it is noted as the Marceline Electric Light Plant: "Run day & night - Heat: Stove - Fuel: Coal." The city obtained ownership of the plant in 1910. By the 1930 Sanborn map the current building appears to have been built here with a similar footprint to its current layout, including the settling basin. Some changes have occurred since such as the removal of the reservoir. In 1930 it is labeled as the Municipal Light & Water Plant ("Runs day & night. Heat: Steam. Lights: Elec."). The 1930 map also denotes a filter warehouse of fire proof construction with exposed steel in the concrete roof, a water tank and settling basin, an engine room with concrete floors (and "iron cols."), a fire department, a cooling tower and oil tanks on concrete piers.

This property may be individually eligible for listing in the National Register under Criterion A for Industry. Further investigation is warranted to determine what an appropriate period of significance would be. See page 50 of the report.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.717160, -92.947360

E Chicago Avenue ends at this facility, picking up again on the other side of the railroad tracks which are to the southeast. To the west, north, and northwest are residences, while to the southwest is a parking lot and some commercial spaces. Immediately east of the building's primary facade are two large transformers. To the north of these are other electrical equipment installations. There are two outbuildings associated with the property that may be early additions to the property; both are to the northeast across Chicago Ave. One is a long building with metal cladding and roofing and a concrete foundation. On its primary facade, which faces southwest (toward Chicago), it has what appears to be a sliding metal door to the east (right) of which is a single metal entry door. Its northwest elevation has six two-over-two windows. The other outbuilding, which also appears to be a largely metal building, was not visible at the time of survey as it sits behind the equipment installations and the other outbuilding.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The facade of this brick building faces northeast. The eastern half of the building is 1 story and projects out from the 2 story facade. What appears to be an original portion of the building is visible towards the east; it has no openings and is slightly taller than the next 1 story portion of the building, which is likely an addition c. 1930. This addition has 3 bays. The 1st holds an early single window with a slightly arched cornice with 2 rows of rowlock brick; it also has a rowlock brick sill. The next bay holds a wooden garage door; while the door looks historic it appears to have altered an original opening that also had an arched cornice of rowlock brick. The 3rd bay appears to have also held a garage door but it has since been infilled with a metal panel. On the west side of the 1 story portion of the facade there are 2 more windows openings with arched cornices. The 2 story portion of the building then houses a large piece of equipment behind which are 4 large multi-paned awning windows. There is then a pair of early double doors. The 1st (eastern) half of the 2nd story has increasingly tall stepped parapet behind which is a medium gabled roof. Centered in the stepped parapet are 2 historic openings with concrete sills: one holds a large fan and the other 12 panes in metal frames. The western flat-roofed portion of the 2nd story houses 3 pairs of original12-paned windows with concrete sills sitting in squares of slightly recessed brick. The western elevation is visible from Chicago and houses 4 more of these windows. The rear of the building has a similar configuration, particularly on the 2nd floor.

Lat/Long: 39.713595, -92.952550

This property is located in an area that transitions from commercial to residential.

There is a small gabled outbuilding that is constructed of pressed metal there appears to be a large chimney potentially for a wood burning stove.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one story ranch house. This building appears to have been reclad with large metal siding and replacement windows. There are three bays on the facade. From the east moving west the first two bays are under the porch awning. The first bay is a single fixed window. The next bay has the main entrance, with a solid door with a metal screen door. In the third bay there is a pair of metal one-over-one hung windows. These windows have vinyl shutters on either side. There is a small square attic vent above. The porch there are metal supports and railings around the porch.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The First Christian Church appears in on the 1930 and 1939 Sanborn maps.

The First Christian Church was in this location on the 1894, 1902 and 1911 Sanborn maps however it is a different building than the current church building.

The first Christian Church building, located at 116 W. Gracia Avenue was constructed in 1915 to replace an older church building that was not large enough for the growing congregation. A book on the First Christian Church includes a photograph c. 1920 with the statement “When the building was dedicated, it looked, with the exception of the vines and the new cars, like this picture, which was taken when W. H. Adair was hurrying up the steps” (see page 51 of the report). The building still looks much as it did during this time; the stained glass windows, for example, are retained. The most notable change to the exterior was the removal of the parapets atop the towers. This occurred prior to 1963. This building is of a Classical Revival style and may be individually eligible for the NRHP under Criterion C for Architecture at the local level.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714170, -92.952530

This building is located just off the main commercial street on a residential street in Marceline.

There is a small garage located at the rear of the property. It is clay tile with an asphalt shingle hipped roof with a chimney in the eastern slope of the roof. The garage door is a modern overhead metal door that is centrally located there is one on each side of the garage door the windows are six-over-six wood hung windows.

There was a dwelling located in front of this garage that was also associated with the church that is no longer standing.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a two story brick church building. The church has a hipped asphalt shingle roof with two two-story towers with flat roof with wide eaves that project from each side of the facade. On the first floor of each tower there is a single one-over-one stained glass window with a concrete sill and lintel. These towers also have decorative brick quoining that is a slightly different color brick as the area that surrounds the windows. The second story of each tower also has a single one-over-one wood window with concrete sills and lintels. The central bay is located under a large porch area that is supported by four ionic columns two on each side of the porch. The columns support a wood entablature that has a stucco parapet above the wood. The porch is accessed via a tall rise of concrete stairs that lead to the large porch area. At both the east and the west walls of the recessed porch area there are single doors that lead into the building. The rear or north wall of the central bay there is a grouping of windows. There are four large fixed stained glass windows with stained glass transom above, the windows are protected by solid glass storm windows. Below this row of windows is the date stone with information about the construction of the church.
The church building has a raised basement with windows. A portion of the rear of the building was used for a Sunday school according to the Sanborn Maps and may have been constructed at a later date.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.713776, -92.952893

This building is located in a primarily residential area just off the main commercial street in Marceline.

There is no outbuilding associated with this building.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is one story brick ranch house with a hipped roof.

The house has four bays on the facade. Starting from the east moving west the first three bays are under a recessed awning porch. The first bay to the east has five fixed windows that are curved outward to form a bay. The next bay is the main entrance for the building there is a solid door that is covered with a glass storm door. The next bay is on the west wall that is perpendicular to primary facade, there is another door this door has a screened door. Moving westward there is an overhead metal garage door.

The porch is supported by a single decorative metal support on the left side. There is also a metal mail slot on the bay with the garage door.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.713904, -92.953193

This building is on a primarily residential street in just off the main commercial street in Marceline. The house is located across the street from the First Christian Church.

The outbuilding constructed at the rear of this property appears to be have been constructed c. 1950s. The is building may be used for housing or storage. It is brick construction with a side gable roof. The building has a large full-width shed roof front porch that faces north toward the main house. There are two four-light windows and two wood doors under the porch. With two-over-two newer windows on the west elevation along with wood siding in the gable ends.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This a two story Italianate house that was constructed of brick the original house has a seven to one common bond brick pattern. The house has a two story shed roof porch on the east elevation. The porch is supported by square wood columns and has a wood railing on the second story. Under the porch is are two entrances to the house. The first entrance is on the north elevation and is wood door with a heavy metal screen door over the primary door. The second entrance is on the east wall and is difficult to see from the street but appear to have a metal screen door. The primary facade of the house has three bays that is organized symmetrically the center bay is slightly projecting and has an arched window opening with two one-over-one vinyl replacement windows and the bays to either side are blank brick walls. Moving west there is a projecting gable that has a single wood door in the north wall with a metal screen. The pattern repeats on the second story. In the front gable end there is an arched attic vent with a fanlight patter that is surrounded by fishlap singles the roof is supported by decorative brackets and there is decorative brickwork elements. The house does have a large modern brick addition to the rear that is constructed of a different color of brick and has modern one-over-one vinyl windows throughout. It is clear the addition added a second story to a portion of the historic property in addition to a new two story portion.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.713978, -92.953341

This house is located on a residential street, just off the main commercial street across from the First Christian Church in Marceline.

Small garage located at the rear of the property it is covered with asbestos siding that matches the house. There is an overhead garage door on the west elevation. The north elevation has a single wood door and a small six-light fixed window. The foundation appears concrete and the side gable roof has asphalt shingles. This outbuilding likely appears on the 1930 and 1939 Sanborn maps.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one and a half story house that is constructed in the Colonial Revival style. The house is covered with asbestos siding. There is a porch on the east elevation that has a flared roof and is supported by metal supports. The eastern bay of the facade is under the porch, the door is wood with six lights and has a metal screen door. The center bay is a projecting gable, this bay has a pair of two-over-two metal windows with vinyl shutters. Moving west the western bay is recessed and has a single two-over-two window and has a vinyl shutters.

The roof is cross-gabled. In the front gable end of the house has a small one-over-one wood window.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714161, -92.953708

This building is located on a corner lot at the southeast corner of Chestnut and West Gracia.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a two-story building with elements of the Neoclassical style. The facade has a large two-story full-width porch with three square support columns. The primary entrance is located in the western most bay; the solid door is flanked by side-lights and has a fan over the door. To the east is a single one-over-one metal replacement window with a decorative window crown. The next bay to the east has an identical window. The second level of the facade has two windows placed over the windows on the lower level. The western most bay in the second story is blank. The elements of Greek Revival styling appear to have been added later, the Sanborn Maps from 1911-1939 illustrate a single story porch. The house also has decorative roof brackets. The house has two additions. The first is a small addition on the east side of the rear of the building, this was a one-story porch that was infilled. The porch appears to have been constructed early in the history of building and appears on the 1911 sanborn map. A second addition was added later to the rear of the property; it is estimated this addition took place c. 1980. The addition is small and has a shed roof and bay window and the chimney is located in this addition. Two carports are also attached to the rear of the building.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The 1930 Sanborn Map shows a building here, but its footprint looks different from the current home. However, by the 1939 Sanborn update a building similar to the current one is visible minus the additions that were added to the rear and west side of the building some time after 1939.

This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714596, -92.953369

This property is situated on a corner lot that slopes down towards the rear of the structure.

There are no associated outbuildings.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a simple 1 story front-gabled home with asbestos siding and a metal roof. Windows are sash. A front-gabled bump out on the western half of the facade has two 4 over 4 windows with an awning. The east facing side of the bump out houses the entrance with several small lights and a door knocker visible behind a storm door. The bump out roof extends out slightly to shelter the entrance which opens onto a platform stoop with a wood ramp and black metal railings. East of the bump out is a 6 over 6 window. The windows appear historic. The site slopes down slightly towards the rear, exposing more of the concrete foundation towards the back of the property and allowing the post 1939 garage addition at the back of the home to be situated at a lower grade. The rear of the home also has a bump out with a small covered stoop with concrete steps and a single metal railing. Another set of concrete steps lead to a sidewalk level with the garage addition. The garage has what look like historic doors and windows of various configurations. What appears to be another addition (post 1939) extends out to the west of the main home as a wing.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn maps indicate that this property was built prior to 1911. It had an outbuilding on the north side of the property that is no longer extant. A small addition and the back wraparound porch may have been added to the rear of the building after 1939. It has also been reclad in vinyl.

This property lacks the significance necessary for individual listing in the National Register. Replacement siding and additions have impacted its historic integrity. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714692, -92.953663

One outbuilding is situated to the northeast of the property at the end of the concrete drive. Front gabled, It looks to be of modern construction and has a single garage door in its front.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This 2 story home, covered in vinyl, has an irregular footprint with a hipped roof and gables on each side. The front partial-width wraparound porch is painted green and appears original, with Queen Anne style posts. Square columns support the side porch that wraps around the back; this porch may have been added later, after 1939. Denticulated detailing is visible above the front door and a small historic looking lamp is immediately east of the door. In the front gable are two 1 over 1 windows with an awning. Above them in the second story is another 1 over 1 window. Recessed from this front gable and under the cover of the front porch is the front door. It is not easily visible due to the presence of a storm door. Windows, most of which are sash, may be historic. One window on the east side towards the rear has glass blocks. Another window, near the front door but facing east, has muntins in a diamond pattern. Another window facing east is a bay window with one large central pane and two smaller panes on either side.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714316, -92.953925

There is a modern ancillary building located at the rear of the property. The building is is side gable and vinyl clad with one-over-one vinyl windows and a single metal door with nine lights. There are two satellite dishes and a stove pipe on the roof.

This house is located on Chestnut Street on the south side of the street.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a single story residence that is constructed with Craftsman elements. The main elevation has a recessed porch on the eastern two-thirds of the facade. The porch is constructed of brick and is accessed via a rise of concrete steps. Under the recessed porch there are two bays the eastern most has three vinyl replacement six-over-one windows. The next bay has a single door that has an aluminum storm door. There are two vinyl replacement six-over-one windows in the corner wall creating the end to the recessed porch. The third and final bay on the facade has a pair of vinyl six-over-one replacement windows. The exterior is covered in vinyl siding. The roof eave extends and has simple but decorative rafter brackets. There is also a large attic vent in the gable end. There is a chimney located on the eastern slope of the roof, it has decorative chimney pots.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714363, -92.954130

There is a two story gambrel roofed out building in the rear of the property the building appears to be covered in tar paper in some portions and metal siding in other.

This building is set in the middle of block on the south side of Gracia in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a two story house with Queen Anne elements the house is clad in wood siding that appears to be original. The porch appears to be recently modified to include a ramp for wheel chair accessibility. The porch wraps around the corner of the primary facade with single post supports and has a simple wood pattern railing. Under the porch, in the eastern most bay there is a single door that has a modern screen door over. Moving west there is another single door in the eastern wall this door has a modern metal screen door in place. The second bay is on the northern wall and there is a large one-over-one metal window. Moving eastward there is an addition with metal siding connected to the screened in porch. This is a small shed roof addition with a metal overhead garage door a metal carport extends in front of this addition. Starting on the east side of the second story there is a single one-over-one metal window, moving east there is a similar single window in the east wall, on the north wall there is a large single one-over-one wood window moving west the windows arrangement mimics that of the opposite wall. There is decorative fishlap siding in the gable ends on the east, north and west elevations each has a small attic vent.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps suggest that this property replaced one that had been on this lot in 1911. By 1930 a home matching this one's footprint was built. Outbuildings appearing on Sanborn Maps up to 1939 are no longer extant.

This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714787, -92.953817

A modern separate garage sits northeast of the property at the end of its gravel drive. It is front gabled with a single garage door entry at its front (no other entries visible from the public right of way). Its siding is horizontal wood panels and it has an asphalt roof.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This hipped roof, single story, cross gabled home has asbestos siding and a brick foundation with what looks to be a full basement. The full width wrap around porch has concrete flooring and six decorative metal posts. A chimney straddles the hipped roof but gables front the facade and east and west sides of the home. Most windows are sash and appear to be 1 over 1 replacements. There are two bays on the facade under the porch. One is a historic window with a small screen at the top and one large pane at the bottom. The second bay holds a storm door concealing what might be a historic front door. Then there is a recess where the porch wraps around and another window faces east. Another window is then situated at a diagonal.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

A building appear at this location on the 1911 Sanborn Map however the footprint is different from the current building. The current building appears on the 1930 and 1939 Sanborn Maps.

This property lacks the significance necessary for individual listing in the National Register. Recladding impacts its historic integrity. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long - 39.714486, -92.954300

This building is located on the western end on the south side of Gracia Street in Marceline. Gracia Street is the last remaining brick lined street in Marceline and is residential street.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This one story bunglow building was constructed with craftsman elements. The house has been resided with aluminum siding that covers the whole building including the rafter brackets. Starting from the east there is a small brick porch recessed in the east part of the facade. The porch has a small gable roof over the porch creating a double front gable. The first bay to the east has a pair of original wood four-over-one windows, followed by a single entrance with a storm door. The final bay on the west side of the facade has a pair windows the same as those previously described. There is a square attic vent in the front gable. There is also a centrally located brick chimney.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps indicate that this property was built prior to 1911. It's full-width front porch was added between 1911 and 1930. A small outbuilding present in 1911 was replaced by 1930.

Though this property is a typical foursquare, it is has seen some alterations, including new siding and replacement windows, impacting its historic integrity. This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714858, -92.953978

A small shed with a single wood door opening at the front (no other openings are visible from the public right of way) is situated at the end of the drive running east of the home. The shed is likely the outbuilding depicted on the 1930 Sanborn Map. It is front gabled with wood siding painted white and asphalt shingles. A concrete drive, poured in two strips, runs down the east side of the home to the outbuilding.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This classic foursquare home has a low hipped roof with a single hipped dormer. The dormer has two vents. The home has asphalt shingles and has been re-clad in vinyl. It has wide overhanging eaves. The full-width front porch is front gabled and has a concrete flooring reached by two concrete steps on the west end of the south facade and a concrete slab on the porch's east side. Two posts with Queen Anne detailing support the porch. Likely constructed with Prairie inspiration, alterations have likely obscured some of this style's detailing. There are two bays. The first is the front door covered by a storm door. The second is a 1 over 1 window. Above the porch are two 1 over 1 windows in line with the bays below. All the 1 over 1 windows are likely replacement. A single 6 over 6 window in the second story of the east elevation is likely historic. All windows are sash except for on the west elevation where there is one small casement window that could be historic. There is also a small bump out window on the east elevation (north end, first story). It has three 1 over 1 windows and a front gabled roof.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps indicate that this home was built prior to 1911.

While this home exhibits some nice Queen Anne detailing, integrity has been impacted by recladding and replacement windows. This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714940, -92.954090

An outbuilding is visible from the alley, facing west. Early or historic, it has wood siding painted yellow but peeling. The garage door is likely a replacement. It has two small window openings facing north.

The home has no front driveway. A narrow sidewalk leads to the front entrance. The site slopes gently northward, exposing more of the home's foundation at the back.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This two story cross gabled home has been re-clad in vinyl. It likely had Queen Anne detailing when first built, like the two similar properties to its immediate east, but those details have since been lost due to alterations that include new siding (installed post 2008) and perhaps an enclosing of the porch, though this likely would have occurred early. It has asphalt shingles and a stone foundation though it appears the foundation was originally covered in plaster that is now crumbling. Most windows are one over one replacement, sash. An exception is visible in the first bay of the facade which houses a large historic window with a single large bottom pane and a smaller upper pane that has metal wire detailing. This window appears original. Above this window is a single nonhistoric casement window with two panes. The porch marks the second bay, but its enclosure obscures any detailing on this side of the home except for a wood railing inside of the screen. The porch is recessed from the first bay and extends down most of the east side of the home. It is wood, painted white, though the paint is peeling. Replacement windows visible on the west side of the home have simple cornices. In the east gable above the porch is a doorway that opens onto a small wooden platform with steps leading down to the back of the home.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/ Long: 39.714590, -92.954505

There is garage located at the rear of the building. The garage appears to be a modern construction. The building is sided with vertical board and has a single metal entrance door and small window to the right of the door.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This two story vinyl sided house has elements of Queen Anne styling. The majority of the windows have been replaced. There are four bays on the first floor of the facade. The eastern most bay is recessed under the second story creating a small porch area, in the north wall there is a single door that appears original. Moving eastward there is one-over-one replacement window in the east wall of the recessed area. Moving east back to the north wall the remaining three bays create a three sided bay type area (two cantered windows flanking a larger centered window). The central portion has an original window that has two large panes of glass on the bottom and two small panes in the top; in the top panes there is some leaded detailing. On each side of this window there are one-over-one replacement windows. The area between the first and second levels is clad with multi-colored asphalt shingles. This area protrudes over the front gable creating a cutaway bay window. The second story of the facade has two evenly spaced one-over-one single windows. There is a gable end on the front facade that has multi-colored fishlap shingles.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715021, -92.954233

Two strips of concrete lead to the concrete flooring under the eastern half of the front porch which serves as a carport. A concrete sidewalk leads to a low, single step narrow wooden porch stoop that provides access to the front entry. No outbuildings appear to be associated with this property.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a 2 story cross gabled home with asbestos siding and Queen Anne detailing. A flat roofed, partial width open porch wraps the southeast corner of the home. It is supported by 8 doric columns and has denticulated detailing under the roof line. Windows are primarily sash and appear historic. The first bay projects out: it houses a large window with 1 large bottom pane and a smaller top pane that has metal wire detailing on the inside. Above, in the second story are 3 narrow arched windows grouped together. They have muntins that mimic their curve and others that radiate out from the curved muntins. Along the edges of the front gable extending down to the rake are wood shingles. They are fish scale in styling while those in the peak of the gable, surrounded by the fish scaling, are diamond shaped in a diamond pattern. The gables on the east and west side of the home have similar detailing. The windows on the front and side of the projecting bay on the first floor have black shutters. A single 1/1 window faces east on the east side of the projecting bay. The next bay is recessed and sheltered by the porch. It houses a door; the door and the lamp by the door appear historic. The next bay is recessed further under the porch and has a single 1/1 window. Above the porch is a square tower with dentils under its steeply pitched roof (topped by a metal weather vane) and round stain glass windows with pie cut muntins.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears in the 1911, 1930 and 1939 Sanborn Maps.

This property lacks the significance necessary for individual listing in the National Register. Integrity is impacted by recladding, metal roofing, and an addition. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714678, -92.954715

There is a small garage at the rear of the property. The siding color and roof material match the main building the building has wood siding and has a front gable roof. A porch area has been recently added to the north side of the building since 2008 per Google Streetview.

This building is located at the southeast corner of the intersection of Gracia and Mulberry. The house is situated on a large lot. Gracia is the last brick street in Marceline, MO.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one and a half story house clad in asbestos siding. The house has a small recessed porch on the east side. From the east there is a one-over-one wood window in the eastern most bay. There is a single door on the east wall, moving east on the north side of the bay there is a small high set one-over-one single window. In the western most bay there is a large single one-over-one wood window that is centrally located in the bay. The window is surrounded by shutters. In the western most bay there is a gable end, their are gable returns at this point and there is a small metal one-over-one window. There is an addition to the west of the building, it is surrounded by a porch.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This property appears on the 1911 Sanborn map. Sanborn maps also suggest that an outbuilding was located on the same spot as the current garage. If the garage is historic it has been dramatically altered by the addition of vinyl siding (GoogleMaps streetview dates to 2008 and shows a different siding than what is currently on the garage). The garage door might also be replacement.

This property lacks the significance necessary for individual listing in the National Register and it has lost some historic integrity with the addition of vinyl siding and the replacement of the windows and doors. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715083, -92.954386

This home is situated at the corner of Gracia Ave and Mulberry Street. It faces south, towards Gracia and has no front drive. From Mulberry Street the house appears to sit on a hill, as the site slopes upwards from the street.

An outbuilding sits behind the home. It faces west and is visible from Mulberry Street. It has been re-clad with vinyl siding. A few window openings on the garage's south-facing and east-facing sides show small one-over-one vinyl windows that are not historic.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This 2 story cross-gabled home has been re-clad in vinyl. The foundation is stone covered in plaster. The porch is partial width, wrapping around the southwest corner of the home and extending down 2/3rds of the west elevation. It has a flat roof with wide overhanging eaves and an entablature with dentils in the frieze. Reached by 6 wooden stairs, it has simple square columns and a balustrade. Added to the west of the porch after 2008 is a long wooden ramp with balustrade. All windows and doors appear to be replacement except perhaps one on the west elevation that has diamond patterned muntins. Windows have simple cornices. Most windows are 1/1, sash. There are two front bays. The first is the front door, recessed under the porch. The second is a large single pane window in the projecting front gable. Along the edges of the front gable extending down to the rake are wood shingles. Above the second story windows they are fish scale in styling while those in the upper center of the gable, surrounded by the fish scaling, are diamond shaped in a diamond pattern. The gables on the east and west side of the home have similar detailing. This shingling is likely historic as it matches the detailing on the home next door, 224 Gracia. There are 3 arched window openings in the front gable, but the windows have been replaced with small square 1/1 windows (the arches above them remain). An addition appears to have been added to the rear after 1939.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The hospital was constructed in 1964 by the St. Francis nuns. In 1969 an extended care facility was added to the building. In 1977, management was taken over by the Sisters of St. Mary in St. Louis. The facility was closed in 2007.

The area does not appear on the 1894, 1902, 1911, 1930 or 1939 Sanborn Maps.

St. Francis Hospital located at 225 West Hayden in the northern section of Marceline was constructed in 1964 by the Sisters of St. Francis. In 1969 an extended care facility was added to the building. The sisters operated the hospital until 1977, when management was taken over by the Sisters of St. Mary in St. Louis. The facility was closed in 2007. The building is an excellent example of Modern Movement style architecture within the community of Marceline and is likely eligible under Criterion C in the area of Architecture. The building may also be significant under Criterion A in the area of health/medicine but information about the interior of the building would likely be required to make that determination, further, due to the later period of significance, it would need to meet Criteria Consideration G to be listed under Criterion A.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.729258, -92.944135

This building is situated on the outskirts north of Marceline. The hospital is on a large lot with large parking lots to the north of the main building.

There is a stone bell tower northeast of the main building. It has five evenly spaced gold bells.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a large hospital complex that has an irregular plan starting from the east there is a wing constructed of brick with a central chimney. Moving east there is a wing that was used as a chapel that has full wall of multi-pane windows, this wing was also constructed of stone while the remainder of the building uses brick. These two wings protrude from a rear wing that has the primary entrance. In the space between these buildings there is a garden with statuary of St. Francis and multiple animals. The wing to the rear is low-lying each bay is filled with windows. Each bay has two large windows above and two smaller windows on the bottom. There is a metal awning that leads from the parking lot to the main entrance. (The entrance is recessed toward the interior of the building). Moving east there is a large wing that extends to the west. Starting at the east part of the wing, there are six fixed windows with large panes on the top and smaller panes on the bottom, followed by a brick wall. Next is a single window followed by a pair of solid metal doors. The next bay is another single window followed by a solid brick wall, Moving east there is a pair of windows the remainder of this wing has a solid brick wall without ornamentation. The westernmost wing is two story with a raised basement. The upper story follows a similar pattern of single windows that are irregularly spaced between brick solid brick walls. Please see the images on pages 52 and 76 for information about the pattern/layout of the building.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears on the 1930 and 1939 Sanborn Maps. The location of this hospital was occupied by a livery in the 1894, 1902 and 1911 Sanborn maps.

The hospital was purchased by the Sisters of Saint Francis in 1946 at the time it was a 16 bed facility. The hospital was expanded in 1952 in 1964 the Sisters of St. Francis built a new hospital at 225 West Hayden. The sisters turned this building into the St. Joseph's Home for the Elderly at that time. This building was operated by the Sisters of St. Francis until 1969, when they constructed an elderly care facility at the new hospital at 225 West Hayden.

Alterations including additions have impacted the historic integrity of this property. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.713913, -92.950740

This building is located behind the main commercial street in Marceline. The building is vacant.

There are two modern metal outbuildings located behind the property. One is larger and has an overhead door. The second is smaller both are modern and do not contribute.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This hospital building has been altered several times through the years. The original building is two story and faces toward East Howell Street. There is a one story addition built in front of the original building. There is also a large three story addition constructed behind the original building that was constructed c. 1960.

The facade has four main bays starting from the east, there is a single window opening, followed by the addition this addition occupies a large portion of the facade. It has brick on the brick knee wall that surrounds this addition there are three boarded window openings, one on each side of the addition, in this addition and has a concrete portion with another band of brick above. Moving west there is a recessed opening in the addition. Moving west there are three remaining bays each with a single boarded windows. The upper level of the main building starting from the west has three evenly spaced windows in the protruding bay with five more windows in the eastern portion of the recessed bay the center window is smaller with two windows on either side evenly spaced. There is a raised parapet in over the protruding west bay.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714259, -92.949782

This building is located off the main commercial street on Howell Street. Howell Street ends at the railroad tracks. This property has a large parking lot in front of the store building. There is a large open area to the east of the building between this building and the railroad tracks.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a very simple metal building. Starting from the west there is a large expanse of metal siding. Moving east there are two paired fixed pane windows. The next bay has a double door with large panes. Moving east there is two paired fixed pane windows. Moving east there is another stretch of metal section. There is a single door all the way to the east of the building.

The rear of the building there is a flat roof portion of the building at the rear (or north elevation) of the building.

There is a partial width porch that covers the entrance and window bays of this building. There is a plastic illuminated "DOLLAR GENERAL" sign over the this porch.

Cupp Chevrolet is located on the main commercial street in Marceline. The building is situated on the northwest corner of the intersection of California and Kansas.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one story building that has been used as a car dealership and auto repair. This building was altered recently to make this building keep with the "Chevrolet" branding. This building has an awning on the south side; the historic display windows are located under the awning. The windows have large panes on the lower level and three smaller panes on the top. The center bay has a metal panels that surround. Moving north the next bay has a divided window, moving north the next bay is a glass garage door. The next bay to the north is infilled there are four small fixed windows, the final bay is a single pedestrian door that is surrounded with with fixed windows. Across the facade there is a false tile roof that has been painted gray.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.716288, -92.949421

This building is located on the main commercial street in Marceline.

This building includes the lot to the south, the lot is currently empty. There is an awning from the building that extends across the lot. The vacant lot had a filling station located on it according to the 1930 & 1939 Sanborn Maps.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a two story building with a brick facade. There are three bays on the first floor. There is a recessed central entrance with a single wood door with a large window, between two large fixed storefront windows with brick knee walls. The area above the storefront has been infilled. The upper level, has two symmetrically placed window groups. Each window group has two four-over-four windows with a large multi-pane window in the center. The south of this building is open and is sided in vinyl. There is a projecting stairwell and there is also an projecting small brick addition to the south. This addition is used as the "chili shack" and has a metal shed roof and appears highly altered because it has concrete block.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building was constructed in phases, the building appears as a cohesive building. Portions of this building may predate the date of construction however the building has been highly altered to match the rest of the building. By 1963 this large stretch of commercial buildings were organized with a unified facade for use as the Walsworth company headquarters.

This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.716501, -92.949029

This building occupies the majority of the block on the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a large building that occupies the majority of the block. The first floor is covered in stucco the upper level is covered in metal siding. Starting from the north the first four bays are identical, on the first level they are blank stucco walls on the first floor and metal covering the upper level. Each bay is divided by a narrow pilaster. The fifth bay has a single metal door. The sixth bay has a three metal fixed windows with small panes on the bottom with larger panes above. The seventh bay is blank, with a small fire connection in the stucco wall and metal above. The eighth bay has five metal fixed windows with small panes on the bottom and larger panes above. The ninth bay has three similar windows. The tenth bay has a rock wall with a narrow entrance and a small awning above. The eleventh bay has three fixed metal windows that are similar to the other windows on this building. The twelfth and thirteenth bays are identical each of the lower bays is blank with stucco on the bottom and metal above. The final fourteenth bay has a single metal pedestrian door, the remainder of the bay is blank with stucco on the lower level and metal above.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.716994, -92.949392

The church is located on the southwest corner of Santa Fe Avenue and North Kansas Avenue. The area is the end of the main commercial stretch of Kansas Ave/ Main Street USA in Marceline. This area transitions from a primarily commercial feel to a more residential setting.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The primary facade of the church faces north toward Santa Fe Avenue. The church has a side steeple arrangement, the steeple is situated on the eastern part of the facade. There is a small arched window with a two small windows below. All windows described are fixed and have stained glass unless otherwise noted. The arched window has a keystone above. Above the first window is a rose window that has a starburst stone pattern surrounding it. The square steeple is topped with a pyramidal roof a tall metal cross rises from this roof. Moving east there is a large arched window that is made up of three large panes and an arched element above that. There are two single pane stained glass windows on either side of the main window. The window has a keystone above with four small crosses above this in the gable end. The third bay is blank and devoid of decoration.

The church has an addition on the south end that mimics the main building but is clearly an addition.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This may be the same building appearing on Sanborn Maps by 1894 as a drug store and dentist. By 1911 it is noted as a bank. The Compendium of Linn County history and the 1959 Marceline telephone directory suggest that Marceline State Bank was operating prior to 1910.

Alterations, including the complete refacing of the facade and south elevation, impact the historic integrity of this building and make it ineligible for listing in the National Register of Historic Places.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714482, -92.950849

This building sits at the eastern corner of the intersection of Main Street and W. Howell Ave.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This two-part commercial block building has been dramatically altered, some time after 1963, with its entire facade and southern elevation covered in what looks like dryvit. Its face is divided into three sections by four simple pilasters. These stop well below the roof line; above the pilasters the building very generally mimics a classical entablature. It has minimal detailing; just below the roofline are four squares situated in line with the pilasters below. Between the first and second and second and third of the pilasters is a plain wall with stucco paneling. The third section is slightly wider and has three openings. The central opening is a single non-historic glass commercial door with a single paned sidelight to its south. The other two openings are windows with a single pane the same height as the door. Over these openings is a blue awning, above which is the sign for US Bank.
The south elevation, which faces Howell Avenue is similar to the front with pilasters in line with the simple decorative squares situated below the roof line. There is a single door on the east end of this elevation followed by a single story portion of the building that also houses a single door and a drive through that has been added to the building's rear. Above the drive through on the rear of the building the original brick, painted white, is visible.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn maps indicate that this theater was built between 1911 and 1930. A plaque on the corner of the building states that it opened on June 30, 1930. Walt and Roy Disney held the Midwest premiere of "The Great Locomotive Chase" here, greeting the children at the door. The Walt Disney Company also held the premiere of "The Spirit of Mickey" here in 1998.

The building appears to retain much of its original materials and seems little changed. It may be individually eligible, at the local level, under Criterion C for Architecture for its architectural style and/or Criterion A for Entertainment/Recreation for its significant use as a local theater. More research would help determine the most appropriate end to the period of significance for a Criterion A argument. See page 53 of the report.

It is currently in use as a theater and a bed and breakfast (in the upper stories).

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Located on a commercial block, the theater is situated between a two part commercial building and a narrow empty lot.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a 3 story building in brick running bond. At the north end there is a large storefront window followed by a single historic door. A centered metal canopy held up by 3 metal chains reads "Uptown Theatre" and shelters the theater's ticket box and 2 pairs of narrow historic double doors, one pair on each side of the box. There is then a single non-historic door followed by another single historic door and large storefront window for Cafe Marceline. A cloth canopy shelters both storefronts at either end of the building. Red brick pilasters divide the storefronts and mark each end of the building's face; beige brick geometric detailing is at at the bottom of the pilasters. Beige brick is also visible under the storefront windows. The 1st floor is divided from the upper stories by red brick; only the red brick pilasters at each end of building continue to the roof, topped with urns. The rest of the upper stories are beige brick except for the rowlock brick window sills and flat lintels which are red. Rowlock brick is also visible under the roofline and the storefront windows. The 12 metal upper story windows, arranged symmetrically, appear original with 24 panes each. At the corners of the window lintels and the storefront canopies are beige blocks with floral detailing. Detailing in the form of a lion standing on its hind legs is on the brick at each end of the building dividing the 1st from the upper stories. The flat roof, which appears stuccoed, slants slightly between the 2 end pilasters. A sign extends out from the upper story reading "Uptown". The N elevation is stuccoed and houses 5 nonhistoric windows.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Two buildings appear in this location on the 1911, 1930, and 1939 Sanborn Maps. However this building has since been lost and the current building doesn't match the footprint of the current building.

This property is of relatively modern construction and therefore does not meet the age threshold for listing in the National Register of Historic Places.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

Lat/Long: 39.714838, -92.951226

This building is located on the main commercial street in Marceline. The building is next to a pocket park on the south and other commercial buildings to the north.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one-part commercial block building. There are four bays on the facade starting from the south the bay is recessed and there are three large fixed pane windows that have wood surrounds, moving north there is a large bay that is angled and leads to a flush wall with a sign "105/107 North Main Street USA" Other than this the bay has no ornamentation and is covered in stucco. The next bay, is also recessed, this bay has two tall narrow fixed windows and a single pedestrian entrance all have wood surrounds. The fourth and norther most bay is also recessed and has a sign with the various business in the building and no other ornamentation. The roof line of the facade is covered with a large metal band, that looks like a Mansard roof, that creates a covered space on the facade.
The southern wall is covered with metal siding. At the rear corner of the southern elevation there is an entrance to the building from the park area described in LI-AS-001-90/ Park. This entrance has a faux Mediterranean appearance with arched window openings and hipped tile roof this area is accessed via an elaborate flight of steps. The rear of the building has two parking areas that are covered by the first floor of the building. In the upper portion of rear elevation there are two window openings, one is centrally located with a pair of one-over-one hung windows covered with a cloth awning. The southern window opening is a large rectangle that is filled with a curved glass block window, this window is also covered with a cloth awning.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714697, -92.950691

This lot is sandwiched between the Uptown Theatre on its south and a one part commercial building on its north.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is the site of a demolished building. A small portion of the original building's beige brick facade remains attached to the building to the north. Today, this narrow vacant lot has a wooden privacy fence that spans its west end. In front of the fence is a landscaped area, a bench, and a Bradford Pear tree.

This building is located on the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one-part commercial block building that is faced with brick. The building has three symmetrically placed bays the central bay is a single glass door with an aluminum frame. There is a small transom window above the door. The bays to the north and south both have two large storefront windows that are surrounded by aluminum framing and supported by a short brick knee wall. The whole store front is recessed under an awning. The area above the storefront is faced with brick and there is a central sign "Busy Bee Florist & Gifts". Above the brick is a parapet that has concrete coping and is topped with a concrete cap the area is filled with wood and three small evenly spaced wood frames.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

A plaque on the building notes the original address as 110 N Kansas Avenue. The plaque reads:
"110 N. KANSAS AVENUE
SITE OF
W. N. WHEELER & DAUGHTER
REAL ESTATE, EST. 1887, 1930
IN MEMORY OF JUDGE G. DERK GREEN
AND FAMILY."
The 1894 Sanborn map shows a smaller building here selling meat. By 1911 a larger building matching the current building's footprint is noted as a "cheap theatre." It appears that by 1930 this building housed offices, one of which likely housed the above real estate company (which is specifically noted at this address in the 1936 telephone directory).
This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714756, -92.950651

This building is situated on a commercial block with a vacant lot to its south and a one-part commercial block building to its north.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This single-story, flat-roofed, one-part commercial block building is faced in red brick that has been painted white. It sits slightly taller than the one-part commercial building to its north. Is has three bays: the first holds an early large storefront window with one large pane facing the street and another slanted inward towards the recessed entrance door. The centered entrance is a single non-historic door with a centered oval light with intricate muntins. The third bay is another large storefront window with the northernmost pane slanted inwards towards the door. Due to the alterations to the window surround in the third bay it is unlikely to be early or original. Above the storefront a large metal panel was added with two small rectangular openings; the first is infilled and the second holds an air conditioning unit. Above the paneling there are no additional openings in the brick. At the roofline there are two rows of protruding brick detailing in a pale pink color. It gives the appearance of upside down pyramids: two header bricks with a space in the middle, followed by a stretcher brick narrower than the line made by the two bricks above, then three more bricks in decreasing size. Fourteen of these are on the bottom row and fifteen on the top row.
A small wooden opening in the foundation suggests a basement.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears on the 1894, 1902, 1911, 1930 and 1939 Sanborn Fire Insurance Maps. At some point prior to 1911 a parking area was established in the basement/rear of the building.

Alterations, including replacement windows, impact the integrity of this property. It lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714959, -92.951096

This building is located on the main commercial street in Marceline. The building is located near the middle of a row of commercial buildings and there are commercial buildings on either side of this building.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a two-part commercial block. This two story brick building has four bays on the first floor. The first three bays to the south are symmetrical. The center bay is a recessed glass door with aluminum framing. The bays to the north and south of the storefront entrance are identical. Both bays have two windows the centralized window is angled toward the entrance and the outer window is flush with the front of the building these windows are supported by a brick knee wall. The fourth bay is the northernmost bay and this is a single solid wood door with a transom above, this door likely provides access to the second story. The storefront is covered with an shed awning that is covered with wood shingles.

The second story has four evenly spaced one-over-one vinyl replacement windows that have modern wood surrounds. The wall area of the second story is covered with a paneling material that appears to be wood. On the exterior walls there is a fluted pilaster. The parapet area has been covered by a slight shed awning that is covered with wood shingles.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

According to Sanborn maps this property appears to have had multiple uses since its construction prior to or around 1894. On the 1894 Sanborn it is noted as a jewelry store. In 1911 it is noted as selling meat and by 1930 the notation refers to a store with refrigeration. Telephone directories note the Hayden Ed Meat Market here in 1936 and 1949.

Alterations have occurred to the property since July 2014 (see GoogleMaps streetview). These alterations appear to consist, as is visible on the exterior, entirely of new paint, including on the brick, doors, and window surrounds. However, the materials all still appear original and the building retains good integrity. However, this property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

GoogleMaps, July 2014

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714790, -92.950574

This property is located at the center of a commercial block with slightly taller one-part commercial block buildings on either side. A tree is located in the sidewalk to the south of the facade.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This brick one-part commercial block building with a flat roof has been painted pale yellow and red. It has three bays: a single door in the first, a centered single door with sidelights in the second, and a storefront window in the third. All materials appear early or original. The doors and detailing around the doors have been painted red; to the north of the first door and on the outside of each of the centered door's sidelights are carved, protruding wooden pieces also painted red. These end just above the door line where a large wood panel (where a sign was once located) has been painted red. Above the panel, the brick, painted pale yellow, is visible. The upper portion of the facade has brick in a decorative pattern, set out from the main brick line. Two rows of bricks with their corners facing outward are painted red.

This building is located on the main commercial street in Marceline and there are commercial buildings on both sides of this building.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one-part commercial metal building. The building has a symmetrical storefront, the building has a central entry. The central bay consists of two glass doors with aluminum framing there are small transom windows above each door. The central entry is slightly recessed and there is a slight grade change when accessing the entrance this is created by sloping concrete rather than a step. The north and south bays are identical with two large plate glass storefront windows with aluminum framing. There is a short concrete bulkhead that supports these windows. The storefront is covered with a flat aluminum awning. The clerestory windows have been infilled or possibly painted over. These windows are surrounded by metal. The parapet has a more modern metal siding along with signage for "Wiggins MAYTAG".

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This property appears on the 1894 Sanborn map as a hardware store. On the 1930 and 1939 updated maps it appears simply as a store.

This building was altered after July 2014 (see Google Streetview).

This property lacks the significance and integrity necessary for individual listing on the National Register. The storefront has been severely altered. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

GoogleMaps, July 2014

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714844, -92.950534

This one-part commercial block building sits on a commercial block between a slightly taller one-part commercial building to its north and a slightly shorter one to its south. What looks to be a historic or early lamp post sits out front.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This flat roofed brick one-part commercial block building has had its storefront altered. It has three symmetrically arranged bays: the first has two large replacement storefront windows as does the third. The non-historic centered door is painted red and has a large centered oval light. Almost the entire lower half of the storefront has been infilled with white brick that is not original. Above this white brick infill the historic detailing in the brick remains. Immediately above the storefront is a row of soldier bricks followed by a row of rowlock bricks. Brick is then laid in a running bond pattern except for a row of soldier bricks in groups of three, then more running bond followed by a another rowlock row of brick. The parapet is in running bond except for one row of soldier bricks in groups of three topped with a stretcher brick.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

A building appears in this location in the 1894, 1902 and 1911 Sanborn Maps however the building changes in size during this time and it does not appear to have the same footprint as the current building. This building appears on the 1930 and 1939 Sanborn Fire Insurance maps.

This property lacks the significance necessary for individual listing in the National Register. It maintains a historic storefront but the upper half of the building has been reclad in metal. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715069, -92.950978

This building is located on the main commercial street in Marceline. There are commercial buildings on either side of this building.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a brick one-part commercial block building. The building has five bays in the storefront the primary storefront material is copper. The first bay to the south has three large fixed windows that are set in a angular pattern to allow for a display space in this bay the windows are supported by a brick bulkhead. The next bay is recessed and has a single wood door with a large glass window in the door there is a wood transom above the window. The center bay creates another display area, this bay has five fixed windows set in copper on a brick bulkhead these windows are set on an angle and create large central display space. The next bay to the north is another recessed door this door is also wood with a large window and a transom above this door also has a wood screen door. The northernmost bay again has three fixed windows set in copper on a brick bulkhead that create a third display space.

The storefront is protected by a large flat metal awning that appears to be a more recent addition. The clerestory windows and parapet are covered in a modern metal siding.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The 1894 Sanborn map notes a property here with power printing. In 1911 it is noted as a drug store. The current building is likely the same building noted on the 1911 Sanborn map. By 1930 the building here had its current use as City Hall.

This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714910, -92.950479

This property is located on a commercial block. To its south is a one-part commercial block building while to the north is a two-part commercial block building.

An associated outbuilding is situated behind this property and is visible and accessible via the alley. It is a simple, small stuccoed building with a low-pitched gable roof, a single door facing northeast, and a single small window facing southeast. It is not eligibl due to lack of individual distinction for listing in the National Register of Historic Places.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This flat-roofed, red brick, one-part commercial block building has three symmetrically arranged bays. The first and third are large single pane storefront windows; there may have been an additional pane above the current windows but they have been infilled with a dark opaque material. The single door has sidelights and a transom that has been similarly infilled. The windows and door are likely replacement. Above them is a large modern sign for Marceline City Hall. Two rows of rowlock brick surround the entrance door. Above the sign is a row of dark brown soldier brick above which is a row of rowlock brick. The soldier row becomes a column of stretcher brick extending to ground; the rowlock row also becomes a column extending to ground. The brick work has some geometric detailing; centered in the parapet are three squares, the center one slightly larger, of darker brown brick that project outward slightly. Above the sign there is a slight curve outward of brick and to the north and south of the sign geometric brickwork protrudes outward slightly to the parapet.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears on the 1930 and 1939.

A different building is located on this lot in the 1902 and 1911 Sanborn Maps interestingly the building listed in this location is a jewelry store which is also the current use of the building. The Yocom Jewelry business opened in 1979.

This property lacks the significance and integrity necessary for individual listing in the National Register. The storefront has been altered considerably, impacting its historic integrity. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

This building is located on the main commercial street in Marceline. There are commercial buildings on both sides of this building.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a brick one-part commercial building. This building has five bays on the first floor. The storefront is symmetrical with a central entry. The entrance door is metal with a small window in the upper portion. On both sides of the door there is a small fixed aluminum window set in a wood wall. The north and south bays are identical, each of these bays has a larger fixed aluminum window with a brick half wall below the windows are surrounded by wood framing. Above the store front there is shed roof awning with a small gable over the entrance. This awning covers the full-width of the building. Above the awning is a multicolored brick cornice. The wall is primarily blonde brick with red brick accent, quoining, a cap. There is also signage in on the brick wall: "YOCOM Jewelry."

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

According to Sanborn maps this property was the location of the Hotel Allen by 1911.

Two signs on the building outline some of its history: a confectionery was located here in 1905. The Allen Hotel is noted as being constructed in 1906. The Allen Hotel sign notes that the Hotel Marceline on Main Street USA in Disneyland is meant to be a replica of this building.

This is currently the location of a restaurant and radio station. Primary changes to the storefront configuration likely happened c. 1940 with in kind updates likely occurring in later decades.

This area does not appear to be eligible for listing as a historic district due to an overall loss of integrity. However, further research on this property may reveal that it is individually eligible under Criterion A, Commerce, for its role as the Allen Hotel.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715003, -92.950312

This property is situated at the southeast corner of N Main Street and E. Ritchie Ave. The facade faces Main Street while the northern elevation faces Ritchie. The rear of the building is visible from the alley.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This 2 story, flat-roofed building is clad in concrete made to look like rough stone. A stone belt course divides the 1st and 2nd stories. Alterations on the facade created 2 distinct storefronts, one twice as large as the other, making up 6 bays. None of the windows and doors on the 1st floor are original. The 1st storefront (Ma Vic's Cafe) holds large storefront windows to either side of a single door. It is sheltered by a canopy below the belt course. The 2nd storefront has a bay of 3 large storefront windows, followed by a single door, then 3 more large windows. Above (up to the belt course) and below these windows the building is clad in metal. 12 original symmetrically arranged 1-over-1 sash windows are located in the 2nd story. They have flat baby blue lintels with a red center stone and baby blue sills. A pediment is centered at the roofline with dentals below. Pilasters are located at each corner and between pairs of windows. The north side of the building's 1st floor facing Ritchie holds 5 covered or partially covered windows, followed by a non-historic door (reached via 3 concrete steps), another partially covered window opening, an early door, 3 covered or partially covered openings, another non-historic door, and at the west end, 3 large windows associated with the cafe. There are 14 more historic windows in the 2nd story, along with 2 more pediments, all of the same style as the facade. The rear of the building has 7 windows on the 1st floor and 6 on the 2nd, all covered in plywood and with simple lintels and sills. An entrance to the basement is reached from the rear by set of narrow stairs.

Lat/Long: 39.715185, -92.950863

This building is located on the main commercial street in Marceline. The building is surrounded on both sides by commercial buildings.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one-story brick commercial building. The building has four bays in the storefront. Starting on the south side the first bay has a single glass aluminum frame door with a small transom window above, the transom window is infilled with an window air conditioning unit. The next bay has a single fixed aluminum frame window that is resting on a brick knee wall. There is a small brick partition between the second and third bay. The third bay from the south also has a single fixed aluminum frame window with a brick knee wall. The northernmost bay has a single glass aluminum frame door with a small transom window above. The storefront is inset creating a covered area. The area above the storefront is a solid blonde brick wall with out ornamentation or decoration. The top of the parapet wall is capped with a thin clay tile.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

According to Sanborn maps this building was constructed after 1894 but prior to 1911. At that time it was a jewelry store. By 1930 it was noted as a shop with a post office behind it. The 1939 updated Sanborn has it as a shop with two dwellings behind it. The sign above the canted entrance suggests that it was associated with the Marceline Knights of Pythias at some point. Albert Zurcher's business operated here from 1909-1973. He ran the store with his wife. This included watch repair, the selling of jewelry and musical instruments, and optometry. At one point the post office operated out of part of this building.

This area does not appear to be eligible for listing as a historic district due to an overall loss of integrity. However, this building appears to retain good integrity and may be individually eligible under Criterion A for its long and significant role in local commerce. Additional research would be needed to determine this; see page 61 of the report.

This property is located at the southwest corner of N Main Street and W. Ritchie Ave.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This flat-roofed, red brick 2-story building's SE facade faces Main. A 1st floor storefront is sheltered by an asphalt shingled awning below which are 2 large windows cantilevered in on either side of a single door (all not original). Under the awning the building is clad in vertical wood siding. To the right the cladding ends & there are 2 historic arched windows with 1 large lower pane and 2 upper panes that align with the window's arch. Beneath are rowlock brick sills. The arches have 2 rows of rowlock brick and 1 row of header brick. Below them is beige brick. In the 2nd story there are 5 1-over-1 replacement windows with upper infill & arched lintels. A recessed entrance is canted at the corner of the building with a window to its left in the recessed wall. The single door, sheltered by a domed canopy, is non-historic; above is an arched transom. Above this is a sign reading "ZURCHER" surrounded in beige header brick below paired nonhistoric windows. Above these is a carved sign that reads "Marceline Lodge No. 172 Knights of Pythias." The NE facade faces Ritchie. The first bay houses another large historic arched window. Following, all with arched brick lintels, are 2 3-paned windows, a single door, another 3-paned window, and a single door, all non-historic. 4 non-historic 1-over-1 windows are in the 2nd story, with upper infill. Along the roof line the brickwork is recessed to form simple geometric detailing. A 1-story portion of the building is located at the rear. It has no openings but is painted with a large Coca-Cola mural. The rear elevation is visible from the alley.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears on the 1930 and 1939 Sanborn Maps.

The Masonic Temple was constructed in 1923 in the Beaux Arts style. This two-story cream-colored brick building is a stately building located on a prominent corner in Marceline. The Masonic Temple is likely eligible for the National Register of Historic Places under Criterion C for its architectural styling. A few minor alterations have occurred such as the boarding of the basement level windows these changes do not impact the integrity of building. The building may also have significance under Criterion A: for its association the Masons though additional documentation would be required to make this determination.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715600, -92.950639

This building is located on the main commercial street in Marceline across from the city park.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is two story brick building. The building is organized into three bays, the central bay projects from the building slightly, starting at the first story there is a raised brick water table that is visible across the facade. Above the water table there is decorative brick work that creates a horizontal linear pattern with a brick entableture above the pilasters. The upper level also has decorative brick work here the bricks are organized to create multiple pilasters across the second story creating a sense of verticality. The building is topped with a stepped parapet with a stone capping.
Starting at the storefront in the southern bay there is a single vinyl fixed multi-light window. The center bay has the main entrance which is double metal and glass doors with a vinyl multi-pane transom window above the door. The northern bay also has a small single fixed multi-light window.
The second story starting at the southern end there is a centrally located arched window that is fixed fanlight window above a multi-pane fixed vinyl window. The central bay also has a large arched window opening the window has a fanlight above a large multi-pane windows. The northern bay has a window similar to the southern bay.
The central bay has a sign above the second story window that has "MASONIC TEMPLE" inscribed on it.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears on the 1930 and 1939 Sanborn maps.

This property lacks the significance necessary for individual listing in the National Register. The storefront has been considerably altered. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715674, -92.950544

This building is located on the main commercial street in Marceline across from the city park.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one story commercial brick building. The building is symmetrical with a recessed central entry. The door is metal with nine-lights in the upper portion. On both sides of the entrance there is angled wall with a single shutter in place of windows with a wood knee wall. Moving further out from the center there are two fixed storefront windows that are framed with wood again with a wood panel knee wall. This storefront appears to have been replaced c. 1990. The original metal storefront columns are present at the point where the front walls meet the recessed angled wall portion the placement of these iron columns suggest the pattern of the storefront is original. Above the store front the area where a clerestory window likely was placed has been covered by a large wood pane with two metal lights. There is also a sign that reads "MOTHER OF BOARDS".

Above the clerestory window there is a brick portion that creates a parapet. The brick in the parapet has double arcaded corbeling and the parapet is capped with a small band of metal flashing.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears on the 1930 and 1939 Sanborn maps. A different building appears in earlier sanborn maps in this location.

The Independent Order of Odd Fellows Hall is a handsome Romanesque style building. This building is likely eligible for the National Register of Historic Places under Criterion C: Architecture. The building was constructed in 1915 and maintains excellent architectural integrity. The building may also be eligible under Criterion A for its association with the activities that historically occurred within. The building is described as “one of the few in Missouri that houses all orders and degrees in the Odd Fellow Lodge.” The 1963 the lodges using the building include Magnolia Lodge 112 Encampment No. 17, Patriarchs Mililant Canton Loar No. 18, and the Quality Rebekah Lodge No. 475. Additional research would be needed to verify the accuracy of this information.

This building is located on the main commercial street in Marceline across from the city park.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a three-story brick building with a flat roof. This building is organized into three main bays there are pilasters on each end of the building. There are also pilasters on each side of the central bay. The building is red brick with decorative buff brick patterns. The building has two storefronts each store front is identical they are located on the north and south sides of a central entrance. The storefronts have glass-block walls the with three bays the central bay is the entry. Each has a wood door with a large window. The doors are flanked by large fixed windows. There are cloth awnings above each store front. The central entry is located in the central bay of the building. This door is recessed behind an arched brick entry way with a sign in the arch that reads "Marceline Youth Center Established 1990". The doors are wood with large windows. On either side of the door there is a brick column the bottom of the northern column has the date stone.
The second and third stories are identical, from the south there are two paired one-over-one vinyl windows the central bay has a a pair of narrow one-over-one windows. The northern bay has two paired one-over-one vinyl windows. There is a wide stone lintel and a narrow sill under each band of windows. There is a stepped parapet with concrete capping. In the center bay of the parapet there is a sign inset that reads "IOOF". There is also a historic light between the second & third floors in the center bay.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The 1894 Sanborn map marks this property as: "Vac. Store Ranges" but no building is here in 1902. By 1911 the current building appears to be present as a hardware store. It continued to have a commercial use through 1939, likely as the hardware store based on 1936 telephone directories. Today it is used as an American Legion post. It has served this post since at least 1959.

This property lacks the significance necessary for individual listing in the National Register. The storefront has been altered considerably. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Marceline Coordinated Welfare Council, Books 1-4, documents and photographs. On file at the State Historical Society of Missouri Columbia Research Center.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715839, -92.950366

This building sits on a commercial block between a three story two-part commercial block building to the southwest and a one-part commercial block building to the northeast. Ripley Park takes up the entire block across the street.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This simple one story commercial block building has a false front/boomtown style roof and is clad in brick. It has four bays made up of a single paned window, a nonhistoric door and a transom that has been infilled with metal, another single paned window, and an early but not historic door with a still intact single paned transom. Both windows have rowlock brick sills. Flush with the top of the windows and transoms is a flat roofed metal canopy. Above the canopy is a sign hanging from a horizontal metal pole. Some simple geometric brick detailing is present in the parapet. The lower portion of the building appears to have been reclad in a different type of brick, infilling a once much larger store front, some time after the early 1950s.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

A different structure sat on this property in 1911 (Sanborn Map); it appears to have been an outdoor setting area with a stage. By 1930 the current building appears to have been constructed as an office building with a store in the northeastern portion of the building. By 1939 it was in use as a restaurant (Mabel's Cafe in 1949). Today it houses a chiropractic office.

This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715891, -92.950273

This building sits on a commercial block between two one-part commercial block buildings. Across the street an entire city block is taken up by Ripley Park.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a simple one-part commercial block building with brick cladding and a flat roof with a parapet with metal coping; the parapet has a taller central portion and is also raised, though less so, on either end. There are three bays: the first and third are two single-paned non-historic windows; they do not completely fill the original window openings and the extra space has been infilled with vinyl. Two door ways had been centered on this facade. One has since been infilled with brick and the other filled with a modern door with transom that is still smaller than the original opening (the extra space has been infilled with brick). The windows have rowlock brick sills. Above the windows there is a row of solider brick, then 10 rows of brick in running bond followed by another row of soldier brick. The changes to the storefront occurred some time after the early 1950s.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps indicate that this property housed several buildings from 1894-1939. Historic photographs indicate that this building was not here in the early 1950s. An exact date of construction is difficult to pinpoint as the building may have seen some substantial alterations that have removed or concealed most of the building's historic fabric; portions of the building may have been constructed earlier.

This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Marceline Coordinated Welfare Council, Books 1-4, documents and photographs. On file at the State Historical Society of Missouri Columbia Research Center.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715986, -92.950226

This building is situated on a commercial block between two one part commercial buildings. There is some green space between its northeastern elevation and the building to the northeast. Across the street the block is dominated by Ripley Park.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This one story commercial block building is clad in brick, but most of the building has been covered in metal siding. The southwestern (left) half of the facade still has brick cladding but is dominated by a single wood door with transom which abuts three large storefront windows. The door and windows may be date to the 1960s or later. The northeastern (right half) of the facade has been clad in metal and has no openings. The top third of the facade has been clad in wood shingles. The northeast elevation is visible from N Main Street; it has an attached gable metal roofed pavilion supported by square wooden posts and half walls that are also clad in metal. The pavilion can be entered via a single metal door.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

In 1894 a Singer sewing machine store was located here. By 1902 the First Presbyterian Church had been built here; the church's footprint was slightly altered by 1911. By 1930 the church had been demolished and a filling station was located here. A service station occupied this parcel through 1969. The current building was constructed after 1969 and prior to 2008.

This building is of relatively modern construction and has a modern false front. It lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

GoogleMaps, 2008.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.716207, -92.950113

This building sits at the west corner of the intersection of W. California Ave and N. Main Street. To its southwest is some grassy space before reaching the pavilion of the one-part commercial building next door.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building's facade, a false front, is stuccoed. The stuccoing was redone or painted between 2008 and 2014. It is likely a relatively modern building with modern windows and doors. The building is symmetrical with two single-paned storefront windows on either side of a double door entry. Above the entry is a short metal canopy. The northeast elevation faces California Ave and is clad in metal with a single double door entry that is not level with the ground (no stairs lead to the entry). The site slopes down towards the rear of the building, exposing the concrete foundation. There are no openings in the rear elevation, which is also clad in metal. The southwest elevation is visible from the green space between this building and 217 N Main. It has a single door entry that is also not level with the ground; there are no stairs to provide access to this door.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

A building appears on this lot on the 1894 Sanborn Map. In 1902, 1911, 130 and 1939 Sanborn Maps show an Opera House at this location. The current building does not match the size and scale of this property. This building appears to have been constructed on the foundation of an earlier building.

This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

This building is located on the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one story commercial building. The facade faces west there are five bays on the facade. Starting from the south of the elevation there are four bays identical bays in a row each has a large fixed window that is set in a metal frames. The fifth bay is the northernmost bay and there is situated at the corner of this elevation. The northern elevation has two fixed windows immediately adjacent to the door. The rest of the elevation has stucco panels, and four fixed vinyl windows evenly spaced in the wall. The building has a metal panel parapet around both the north and west elevation. There are metal pipes that come out from the bottom of the parapet.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The 1894 Sanborn map shows a two story bank building here. The First National Bank could have been located at this site at this time. By 1902 the current one story building, still utilized as a bank, may have been constructed. It is noted as a bank up to the 1930 map; on the 1939 updated map it is noted as a store with offices in the rear half.

The door and windows could be early but are likely not original; however, the openings likely are and the building appears to maintain excellent integrity. However, based on the parameters of this study there is no indication the property is significant for individual listing. District potential is also unlikely due to a loss of integrity in the surrounding commercial area.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714177, -92.951002

This building is located at the southern corner of the intersection of S Main Street and W Howell Ave.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This flat roofed, beige brick, one-part commercial building has three symmetrically arranged bays. The 1st and 3rd bays have large 2-paned storefront windows with early wooden sills. The 2nd has a single entrance door. The door and the windows are likely replacements but in the original openings. Above each window and the door are cloth canopies. Four pilasters ending a foot or two above the canopies are capped in red; they are at each end of the facade and divide each bay. A row of soldier bricks sits immediately above the canopies between each pilaster. Above where the pilasters end is a limestone or concrete sign reading "FIRST NATIONAL BANK". The roof line has crenelation with red coping. The north side of the building has been painted red. Another large storefront window, with three tall panes under three short panes, sits in the northern elevation close to the facade's storefront. To its east are two narrow window openings with three horizontal panes that sit high on the wall within brick infilled openings. The rear half of the building, on the north face, has several identical office entrances. There is a large window, followed by single door with canopy; this pattern is repeated three times. Then there is are two infilled windows between which is a single narrow window. This elevation has some intricate detailing in the brick work at the bottom of the parapet. There are no openings on the rear of the building which is visible from the alley and Howell Avenue.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building is noted as a grocery store on the 1894 and 1902 Sanborn maps. By 1911 it was a confectionery or candy store and in 1930 it was a drug store. The 1939 updated map notes that it was a store. Phone directories indicate it was drug store in 1949, 1959 and 1969.

This property lacks the significance necessary for individual listing in the National Register. The storefront has been altered. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714142, -92.951084

This building is located on a commercial block between two one-part commercial buildings.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This simple flat-roofed one-part commercial block building has had its storefront altered. There are three symmetrical bays: a large replacement storefront window, a single non-historic door, and another large replacement window. Around the door and windows the building has been reclad in wood paneling. Beneath each window it reads "The Curiosity." Above the windows and door is a large wood shingled canopy above which the building's historic brickwork is visible, including a row of solider bricks immediately above the canopy. Additional detailing in the brickwork is visible below the roofline, with a row of brickwork that has three solider bricks side by side alternating with three stretcher bricks stacked together.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

According to the 1894 Sanborn map a larger building was located here that was a fruit seller and a millinery. By 1902 this building appears to have been constructed. In 1911 it was operating as a bakery. By 1939 it was a restaurant. Telephone directories indicate it housed a cleaners in 1949, 1959, and 1969.

This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714076, -92.951100

This building sits on a commercial block with a one part commercial block building to its north and a two part commercial building to its south.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This brick one-part commercial block building has a flat roof. There are three bays, the first of which appears to have been an entrance or window that has been covered with vertical wood siding, painted a bright blue. The second has a large non-historic storefront window with two panes and a rowlock brick sill. The third is a slightly recessed entrance with a single door, also non-historic. Above the storefront is a large awning with asphalt shingles. Above the awning is a row of solider brick; a little below the roofline is another row of solider brick. A column of stretcher bricks is on the north end of the facade. The rest of the brick is in running bond. Incongruities in the brickwork suggest some alterations at an unknown date.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

A building appears in this location in the 1894, 1902, 1911, and 1930 Sanborn Maps. In the 1939 Sanborn map the location is noted as fire ruins.

This property lacks the significance necessary for individual listing in the National Register. The storefront has been considerably altered. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714316, -92.951782

This building is located on the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a commercial building. The first floor has been altered and the space that would have previously had a storefront display is infilled with siding. From the south the first bay has a large square vinyl fixed window. Moving north the next bay is the entrance and there is a door with a nine-light window. The next three bays to the north each have a single fixed square vinyl window. Above the windows is a full-width metal awning across the front of the building. Above the awning the clerestory windows have been infilled or have been boarded. The upper level of the storefront is a large brick parapet that has decorative patterns created with the use of buff and red bricks. The stepped parapet has a concrete cap. There is also a metal post that used to support a sign but currently on the support remains.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

According to the 1894, 1902, and 1911 Sanborn maps a one story building was located here. By 1930 this two story building appears to have been constructed and utilized as store. This property has undergone severe alterations that have removed or obscured any historic detailing, making an exact construction date for this property difficult to determine.

This property lacks historic integrity due to a recladding in a different type of brick, modern windows, and a modern storefront. This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714052, -92.951207

This building is located on a commercial block with a one-part commercial building to its north and one to its south. In front of the north pane of the storefront window is a bricked garden plot filled with gravel and stone. Inside of it is an old pump handle for a well.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This two-part commercial block building is clad in rough narrow brick in running bond. It has three bays, the first of which is a large non-historic storefront window with three panes; it takes up most of the first floor storefront. Immediately to the south is a single non-historic door providing entry into the store. To the south of this door is another single non-historic door that leads to the upstairs apartment. Above the storefront is a sign reading "Deja Vu Thrift and Consignment New & Lightly Used" above which are two pairs of non-historic one-over-one windows with red wooden sills. There is no other ornamentation. Based on the brick work utilized in the recladding of this building major alterations likely occurred after 1950 or later.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

In1894 a single property was located here housing a grocery store and hotel. By 1911 two separate buildings were located here housing a grocery and a separate dry goods store. The 1930 and 1939 updated map note it as housing stores. These all appear to have been two separate 2 story buildings on Sanborn maps but they match the footprint of current building, including the addition on the rear. Current aerial images suggest the current building was once two separate 1 story buildings, so this could be an earlier building that has lost its upper story. Further, the facade of this building has undergone major alterations, including recladding the entire upper half in metal. The lower storefronts, including windows and doors, also do not look to be original and space under the windows has also been reclad in metal.

This property lacks historic integrity due to modern storefronts and the addition of metal cladding. It also lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.713948, -92.951292

This property sits on a commercial block. To its north is a two-part commercial block building and to its south is a paved alley.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This flat-roofed one-part commercial building has two bays. The first consists of two large storefront windows immediately followed by a single door. The next bay is made up of another single door adjacent to two more large storefront windows. Between the doors is a brick pilaster. Windows and doors all appear non-historic. Brick pilasters are visible at each corner of the building. Below and above the windows the building has been reclad in metal. Signs for the two businesses are conjoined and situated in the metal siding on the upper half of the building. The south side of the building, facing the alley, has been covered in white stucco. Three windows have been infilled with plywood on the outside of which are metal bars. A non-historic single metal door sits between the second and third window. What appears to be an early addition to the building is attached to the rear; it is clad in stuccoed concrete block and has a garage door entrance.

Lat/Long: 39.714174, -92.951785

This building is located on the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a commercial building that historically consisted of two different buildings. The northern building is one story and the southern building has two stories. The buildings have been covered with metal cladding.

The first floor starting from the south has seven bays. The southernmost bay is a single door with a screen aluminum door over the main door this entrance appears to provide access to the second story. Moving north the next two bays are filled with large fixed metal storefront windows with metal supports between. The fourth bay from the south has a recessed angled entrance it has an aluminum door with a small window immediately adjacent. The next bay to the north has a large metal panel followed by a large fixed storefront window. The final two bays to the north also have large fixed storefront windows with metal paneling between the windows. The storefront of this building is covered by a full-width metal awning. The area above the awning is clad in metal siding and and has signage "C & W True Value HARDWARE" The is also a metal grate above the sign that presumably allows light into the second story.

Lat/Long: 39.714091, -92.951836

This building is located on the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a commercial building. On the first floor there are four bays starting on the southern bay there is a large metal and glass door. The following three bays are identical and they consist of large fixed storefront windows with metal supports between.

There is a wood shingle shed awning across the width of the building. The awning is supported by two wood supports.

The upper level has three evenly spaced vinyl windows the windows have one-over-one windows with transoms above. There is decorative brickwork that surrounds the windows and in the space above the windows. There is also some decorative brickwork in the parapet.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The 1894 Sanborn map indicates that this store, built prior to 1894, was utilized as a clothing, boots, and shoes store with hotel rooms likely upstairs. On the 1911 map it is indicated as vacant but it was again in retail use by 1930.

This building has seen some substantial alterations, especially on the first floor, which has new siding and a new configuration. The upper story also has portions that have been reclad and a modern window. The property lacks historic integrity and is therefore not eligible for listing in the National Register.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

GoogleMaps, 2008.

Sanborn Maps: 1894, 1911, 1930, 1939.

Southwestern Bell Telephone Directories for Marceline: 1936, 1949, 1959, 1969, 1981, & 1992.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/long: 39.713854, -92.951424

This building sits on a commercial block between an alley and another two-part commercial block building.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a two-story commercial building with a flat roof that now appears to serve as an apartment or residence. The first story of this building has been severely altered, with some alterations also evident on the second story. The first story has been reclad in brick and has three bays. The first and the third are recessed single wood entrance doors. The central bay is a single vinyl sliding window. Wood timbering breaks up the the brick on the first story. The second story appears to have maintained some of its historic metal cladding which includes a decorative cornice. The central portion of the second story has been infilled with vinyl siding and a nonhistoric picture window with a large central pane flanked by one-over-one windows. The building's northeast elevation is visible from an alley; this elevation is clad in brick and some stuccoing. Three windows with rowlock brick sills have been infilled.

Lat/Long: 39.713959, -92.951917

This building is located along the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a two story commercial building. The storefront is symmetrical. From the southern bay has a solid fixed storefront window followed by a window that angles toward the recessed door. The door is in the center, the door is solid with a diamond pattern window in the door. Moving north there is another angled window followed by a fixed window that is flush with the storefront. There is metal between all the windows and they are supported by a brick knee wall.

Above the storefront there is a wood shingle awning.

In the second story there are four window openings that have been infilled with wood and aluminum one-over-one windows. There is decorative brickwork in the parapet.

Lat/long: 39.713805, -92.951438

This building is situated on a commercial block between two two-part commercial block buildings.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This narrow, two story, flat-roofed commercial block building has seen some alterations; the windows and doors all appear to be replacement and the upper story has been reclad in what appears to be vertical wood siding. Its first story has three bays: a large commercial window with a sliding window above it followed by a single door entry. The bottom floor is clad in brick; the storefront window has a rowlock brick sill. The two stories are divided by a wood shingled canopy. The second story has two, one-over-one vinyl windows.

This building is located on the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a two story commercial building. Starting at the southern end of the storefront there is a single large fixed window; it has a metal support between. The second bay from the south has an identical window. There is wide wood divide between the second and third bay. Under the first through third bay there is a tall wood panel knee wall. The third bay has a fixed window. The fourth bay has a single metal and glass door with a small transom window above the door. The fifth bay has solid door with a transom above.

There is a wood shingle awning above the first floor.

On the second story are four identical replacement windows that are evenly spaced. The windows are one-over-one vinyl hung windows with transoms above. The window openings in the upper level are arched. There is decorative corbeling in the parapet.

There is also a large metal sign that projects from the second story.

Lat/long: 39.713773, -92.951470

This building is situated on a commercial block between a two-part commercial block building to the north and a one-part commercial block building to the south.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The first story of this two-story flat roofed building is clad in brick and has three bays. The first is a very narrow wooden door that may be early if not original. The second is a nonhistoric large single paned window. The third is a single nonhistoric glass door. Above the first story is a wood shingled canopy that the building shares with 115 S Main. The upper story has been stuccoed and has three windows. The windows are not original as the window openings appear to have been altered (indicating once larger windows, two of which had been arched), but they do appear to be early. They are two-over-two wood windows. The central window is wider than the other two and its original rectangular opening is surrounded in rowlock brick; it houses an air conditioning unit. A false shed roof with clay tiles projects out from the building diagonally along the roofline.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building appears on the 1930 and 1939 Sanborn Maps. There is a building in this location starting in 1894, 1902 and 1911 however the earlier buildings have a different foot print than the current building.

This building's historic integrity has been impacted by a nearly completely bricked in storefront and bricked in upper story windows. This property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.713868, -92.951979

This building is located toward the southern end of the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a commercial building. The storefront of this building has been infilled with brick and appears to be highly altered.

From the southern bay there is a single fixed vinyl window. The center bay, is the recessed door, the door is solid with a diamond pattern window in the door. The third bay is a single fixed vinyl window. All elements are nonhistoric.

The upper story has four windows openings that have been infilled with brick. There is historic brickwork in the upper level with multi-colored brick creating decorative patterns. The stepped parapet is capped with concrete.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

A building matching this one's footprint appears to have existed here by the 1902 Sanborn map, noted as "Harness." By 1930 it is noted as having commercial use.

This property has undergone major alterations, including a complete recladding of the facade which obscures any historic detailing. It may have been completely rebuilt. It therefore lacks historic integrity. This property also lacks the significance necessary for individual listing. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/long: 39.713736, -92.951492

This building sits between two, two-part commercial block buildings.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a simple, flat-roofed, one-part commercial block building which has been clad in a dark brick. It has two bays: one is a large single paned window and the other a single recessed door. Neither the cladding nor the window and door appear to be original. The window has a rowlock brick sill and the roofline is demarcated with a row of rowlock brick.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Sanborn maps dated to 1894 indicate that this building originally housed two storefronts, one for meat and one for furniture. In 1902 it sold meat and housed a jeweler. By 1911 it sold meats and the other half operated as a restaurant. It continued to have commercial uses throughout the 1930s and ensuing decades, likely continuing operation, at least in part of the building, as a restaurant.

This property has undergone major alterations, including a reconfiguration of the storefront and windows (at the first and second story). It therefore lacks historic integrity. It also lacks the significance necessary for individual listing on the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/long: 39.713654, -92.951563

This building is situated on a commercial block between a one-part commercial block building to its north and a two part commercial block building to its south.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a flat-roofed, two part-commercial block building with 6 bays. The lower floor has been reclad in vertical wood planks. Windows and doors do not appear to be historic. The first bay, from left to right, houses two storefront windows and the second a single door. The window and door are both surrounded in blue painted timbering and the siding on this portion of the building is painted white. The rest of the first floor siding is painted blue. The third bay houses another single door, the fourth two tall storefront windows, and the fifth a recessed single door. The final bay matches the fourth, housing two tall storefront windows. These windows are surrounded in wide white frames. Above the first floor is a metal roofed canopy that spans the full facade of this building and the facade of the building to the south. The upper story maintains its original brick cladding and detailing, which includes two large arched openings that were once large windows; the archway to the north is approximately half the size of the archway to the south. The arches have three rows of rowlock brick sills. These openings have been infilled with vertical wood planks and small one-over-one windows. The first, smaller arched opening has a single window while the second has two windows. More brick detailing is along the roofline, including a zigzag design made with bricks that project out slightly.

This building is located on the south end of the main commercial street in Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building is a two story stucco clad commercial building. The storefront is recessed under an awning. There are three bays on the storefront. The southernmost bay has a six-over-one window and the center bay is a solid wood door. The third bay from the south also has a single six-over-one window. There is a metal railing that separates the sidewalk and the porch. Above the storefront there is a row of clerestory windows. The second story has a two windows that have been boarded. The southern elevation has also has a central entrance that is flanked by two arched windows to the west and one arched window followed by a single door with an arched transom. The entrance has a front gabled brick entrance and an awning from the building to the street. The roof is surrounded by decorative parapet.

In the one story addition to the rear it is also covered in stucco from the west there are two one-over-one windows then a a single entrance behind a metal screened windows. The next bay has another single window followed by another single door and single one-over-one single window. All openings in this part of the building are surrounded by brick.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

In 1894 this building was serving as a pool room. It sold second hand furniture in 1902 and appears to have been in use as a general store as of 1911. 1930 and 1939 maps indicate its continued commercial use which continued in ensuing decades.

This property lacks historic integrity, having seen some major alterations including recladding and replacement windows and doors; only the cornice appears intact. This property also lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.713567, -92.951600

This building is located at the eastern corner of the intersection of W Gracia Ave and S. Kansas Ave. Its southwest facade faces Gracia. To its north is another two part commercial block building.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building's facade has been reclad in vertical wood planks. None of the doors and windows appear to be historic. Its first floor has three bays. The first and third hold recessed single metal doors. The central bay is a wide single paned window. Above the first floor is a metal roofed canopy shared with the building to the northeast. The second story has a single pair of one-over-one windows. The upper story is dominated by a large, metal cornice with geometric detailing.
The building's southwest elevation is visible from Gracia Street; its lower half is concrete block while the upper half has been clad in asphalt singles. Between where the shingling meets the front and rear elevations is vinyl siding. The first floor has three openings towards the rear of the building: a wide single paned window followed by two single doors. The upper half houses five one-over-one windows.
The rear of the building, facing southeast, is also visible from Gracia. It is also clad in concrete block, though a large portion of the upper half has also been clad in asphalt singles. There are no openings on the first floor; there are two one-over-one windows in the second floor.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building does not appear on the 1894, 1902, 1911 or 1930 Sanborn maps. The Post Office is on the 1939 Sanborn Map.

The building may be eligible as an example of the Art Deco style, with PWA Moderne influences, in Marceline. This building is also potentially individually eligible for the National Register of Historic Places under Criterion A, Politics/Government, however additional research and an evaluation of the interior would likely be needed to confirm this statement. The interior has a mural completed as a part of the New Deal entitled "Contemporary Life in Missouri" and so the building may also be eligible under Art (further investigation is warranted, see page 56 of the report).

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714751, -92.949910

This building is located off the main commercial street in Marceline across from the city park.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The post office is a one story building with 5 bays and a handicap accessible ramp in the front of the building. The facade is constructed of brick and concrete. From the east the first bay is constructed of brick and has a single vinyl nine-over-nine window. The next bay to the west has a fifteen-over-fifteen vinyl window this portion of the building is concrete panel. The next bay is also set in concrete and there is a single door with solid sidelights with a fifteen pane fixed window above. Moving westward the next bay is also set in concrete with a single fifteen-over-fifteen window. The final bay to the west has a single vinyl nine-over-nine window and this bay is brick.

Over the central three concrete bays there is a sign "UNITED STATES POST OFFICE MARCELINE MISSOURI"

The rear of the building has a loading dock to the east and to the west there is an addition that was constructed c. 1960.

Inside the building there is a Post Office Mural "Contemporary Life in Missouri" by Joseph Meert completed in 1938 commissioned by the Treasury Section of Fine Arts. https://livingnewdeal.org/projects/post-office-mural-contemporary-life-in-missouri-marceline-mo/

This building is located off the main commercial street in Marceline. The building is located across from the city park and next to the railroad tracks.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This is a one and half story community building. Starting from the east there is a pair of four-over-four hung windows moving west there is another pair of four-over-four windows. The next bay to the west is single metal door with a glass surround; there is a large window in the door. The next three bays are identical, each bay has a large sixteen pane fixed window. The seventh bay from the east is the main entrance. There is a front gable over this entrance. There are two double glass doors in this entrance the doors are surrounded by large pane fixed windows on each side and six fixed windows above. Each of the three bays (bays 8-10) west of the entrance has a large sixteen pane fixed window. The building has a low pitched hipped roof around the majority of the building. The center has a taller front gable roof that rises from the center of the building. There is also a front gable roof portion over the main entrance of the building.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.716261, -92.947920

This property is located off the main commercial street in Marceline. The MFA facility is located across from the Santa Fe Depot and a the railroad tracks. This is a transitional area toward a more industrial area.
There is a full metal warehouse building located south of the main building. The building is devoid of ornamentation except a large overhead garage door.

The ten structures include: three grain silos that are immediately south of the main building. There are also three grain storage bins that are west of the silos. There are also two small round hopper tanks and square hoppers attached to the silos. These are all located west of the main store.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The MFA property comprises a main store building, a large warehouse type metal building, and 10 structures (the outbuildings are described above).

The main building starting on the north elevation is faced with clay tile in the main portion with two bays. The eastern most bay has been infilled with metal siding the western bay has been partially infilled with metal siding and a sliding vinyl window. The gable end has the same metal siding. The metal siding material is used across the western elevation. From the north on the western bay there is a single door, then two vinyl sliding windows. The final opening in this elevation is a large sliding vehicular sized door. There is a plastic sign on the ridge of the roof reading "MFA AGRI SERVICES".

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This property is located on the 1930 and 1939 Sanborn Maps. In 1894,1902 and 1911 Sanborn maps illustrate an earlier depot that was in this same location.

The Santa Fe Depot is an excellent example of a large scale railroad depot and may be eligible for the NRHP under Criterion A: Industry and/or Transportation. This depot represents the impact of the Santa Fe Railroad in Marceline. This depot maintains excellent integrity and represents the connection of the rail industry, a significance industry in the development of Marceline. While the significance of this depot has a strong local connection, it is possible this depot could be eligible at the statewide level, however additional research and documentation would be required to make this determination. Additionally, the building may be eligible under Criterion C: Architecture for its architectural merit. This building now houses the Walt Disney Hometown Museum.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

1989 Eligibility Assessment Form submitted by Carol Kingsmith for the depot.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715807, -92.947859

The Santa Fe Depot is located immediately west of the railroad tracks in Marceline. The depot is away from the main commercial street in Marceline. The building is adjacent to Ripley Park.

There is a small outbuilding that operated as the "beanery" a railroad eatery is located immediately south of the main depot building. This building is constructed of brick and mimics the style of the main depot building. The building has three bays on the west elevation from the north there is a set of vinyl windows that are set in an infilled space. The central bay is slightly recessed and has a single pedestrian door that is set in a infilled space. There is a replacement window immediately south of the door. The southern most bay is a single window that also appears to be infilled. There is a chimney on the southern edge of the building. There is a flat roof with a concrete capped parapet.
There is also a landscaped garden north of the main depot. The rail tracks are visible in front of the beanery.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The Marceline Depot will be described by the west elevation, historically this would have been the rear of the building with the primary elevation facing the railroad tracks on to the east. The depot is a two story brick building with six bays on the first floor. Starting from the north there is a slightly projecting bay with three single windows all one-over-one with transoms located above. Moving south there is another grouping of three windows these are smaller fixed windows with the center window infilled with brick. The entrance bay is next there is a set of double metal doors with small one-over-one windows on either side with transoms above. Above the main entrance is a 18-light window in the transom above the door. Moving east there are two more groupings of three windows each with one-over-one windows with transoms. The final southern bay is also slightly projected with a grouping of three single one-over-one windows with transoms. The second story mimics the main level with six groupings of three windows. The third and fourth bays from the north have some stucco infill in the lower level. The roof is flat and there is a parapet that surrounds the roof that has terra cotta capping and decorative elements. Also all windows on the first floor have terra cotta sills. There is also a name plate in the center of the building with "MARCELINE" in terra cotta. The east elevation generally mimics the west with the exception of a canopy over the recessed portion of the first floor and additional decorative elements.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

In 1894 and 1902 a small schoolhouse occupied this lot (Sanborn). In 1911 the "Central School," with electric lights and furnace heat sat here. 1930 and 1939 Sanborn maps show the original footprint of Marceline High School which is clearly visible today on aerials though the school has effectively tripled in size due to large later additions. The original high school building housed an auditorium with a steel truss roof and balcony, and a gymnasium with a stage. Two other buildings sat on this lot in 1930 and 1939 which are no longer extant: the Central Public School and a manual training building.

Additions were made in 1972-73 (the gymnasium was added to the south side) and in 1984. The 1984 additions connected the original high school building with some free-standing buildings constructed in the early 1970s. Another addition was added in 2015. These additions impact the integrity of the school making it ineligible for listing in the National Register of Historic Places. See page 40 of the report for an aerial image depicting the additions.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714411, -92.945034

This property is surrounded by residential development to the northeast, northwest, and southeast. Further southeast is the Walt Disney elementary school. To the south and southwest are grassy areas and parking lots.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The original southeastern and southwestern elevations of this school have been obscured by large later additions. The primary facade faces NW; its western half is made up of a flat-roofed 1-story brick addition. The westernmost portion of the addition bumps out and houses a central recessed single door entry flanked by 2 narrow 1-over-1 windows on either side. The rest of the addition houses 3 small 1-over-1 windows followed by a double door entry with a large arched transom sheltered by a concrete vaulted canopy supported by 2 square brick columns. The original facade is symmetrical with a prominent central double door entry recessed in a small bump out which has a small hipped roof. Narrow decorative brick arches are above the entry and above 3 narrow windows in the 2nd story above the entry. The central portion of the building has a flat roof with a small faux pediment; the rest of the roofing appears hipped. On either side of the bumped out entry are 6 windows in the 1st and 2nd stories. All original windows have been replaced with metal windows; top panes are covered and sit above 3 small awning windows. Shallow pilasters divide some of the windows; some pilasters and the corners of the building are quoined. The northwestern elevation houses a 2-story bump out with entry above which are 3 nonhistoric narrow arched windows followed by 3 decorative vents. The ground slopes to expose the basement level which has 5 window openings that are smaller than the windows above: 5 windows in 1st & 2nd story like those on the facade. Following is a gable-roofed modern addition.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.702408, -92.954216

This building is located in the industrial area of Marceline east of the railroad tracks and north of Scott Street. The building appears to be used for storage or as a warehouse.

There is a small outbuilding that was according to the Sanborn Map as the heating plant. The outbuilding was constructed of brick and has a pair of metal double doors with four pane windows in each door. The building has a side gable galvanized metal roof with a large chimney rising from the rear of the building.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This building faces east. It is a warehouse/manufacturing building that was constructed in multiple phases. The original buildings have brick pilasters with stucco or concrete in the area between the pilasters.

The east elevation has seven bays starting from the south there is a three bay portion that has a front gable roof. The center bay has a pair of metal doors with four window panes each flanked by bays with large metal multi-pane windows each bay has a large multi-pane metal window above. The next bay to the north also has three bays the center bay has a single metal door with a small boarded window above. The door is flanked by large boarded windows on either side. The northernmost bay is a metal building that is constructed of metal and has a shed roof and a large sliding metal door.

The southern elevation was constructed in two phases the eastern portion has eight bays with metal double doors, paired multi-pane windows, and an overhead garage door. The western portion has arched multi-pane metal windows and a pair of sliding metal doors. The western bay has a single pedestrian door and a single infilled window with a vinyl window.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This property is not represented on the 1894, 1902, and 1911 Sanborn Maps. The 1930 and 1939 show this building in this location.

This property does not appear to be eligible for listing in the National Register due to an overall loss of integrity, largely due to a large modern standing seam sheet metal addition to the west side of the property. The addition more than doubles the building's historic footprint.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

40. (CONT.) DESCRIPTION OF ENVIRONMENT AND OUTBUILDINGS. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.701386, -92.958415

This building is located in the industrial part of Marceline. South of East Scott Street and east of the railroad tracks. This building is situated on a large lot with many industrial piles around the property.

There is an outbuilding that according to the Sanborn Maps this building housed storage tanks. This building faces west the there are two bays on the facade. From the north the first bay was infilled with metal siding and there is a single door with a one-over-one window, the second bay is completely filled with stucco. The building has a upper level, and the top bays are completely filled with stucco. The roof is front gable it appears to be replacement with metal gable.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This main building is front gable with brick pilasters and window surrounds the remaining area is filled with stucco. There is also a large metal building addition that was constructed to the west of the main building.

On the facade starting at the east corner, the first bay has two openings. The first is an infilled metal door, the next bay has a multi-pane window. The next bay is a metal addition with a front gable portion. There is a single door, with two fixed windows. The next bay is an infilled with stucco. The upper story of the main building has three bays each bay has a multi-pane metal windows. There is also a single window in the front gable of the third level.

Moving west there is another building that has a flat roof and two bays each bay has a large paired window metal multi-paned windows. The upper level of each bay also has a multi-pane fixed windows. There are also modern metal buildings that are attached to this building to the west of the historic buildings toward the railroad tracks.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This area is not covered by the 1894, 1902, 1911, 1930 or 1939 Sanborn maps.
The Marceline African American School was constructed in 1933 after an early school building was demolished. The one-room school is located at the Northeast corner of the intersection of Chestnut and Wells. This school represents the last structure associated with the African American community in Marceline. It is therefore eligible for the NRHP under Criterion A for Ethnic Heritage: Black and Education. 20-25 students were enrolled in the school throughout the 1930s, but by the 1940s the population of the local African American community was declining. Marceline was desegregated in 1954; the period of significance for this property would likely be 1933 to 1954.
Additionally, the building is also likely an excellent example of a single teacher school. It appears the school would qualify under the Multiple Property Documentation Form (MPDF) "One-Teacher Public Schools of Missouri, c. 1774 to c. 1973." MPDF's provide historic contexts and registration requirements for certain types of properties. Properties that fall within this context and meeting these requirements can be listed under their related MPDF. This school would likely qualify under the MPDF as an "Architect Designed/Plan Book One-Teacher School". Thus, the property may also be eligible under Criterion C for Architecture.

Lat/Long: 39.710324, -92.956957

The school shares a parcel with 210 West Wells in Marceline. This school is located on the Southwest side of Marceline across from the large city park. The area is primarily residential.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The Marceline Colored School is a one-room school that was constructed of ceramic block. On the main elevation facing east there is a single wood door with a transom above the door is accessible via a rise of concrete steps with a simple railing in the southern most bay. The center and northern bay each have a pair of six-over-six wood hung wood windows. Each has a brick sill and surround. The basement/ foundation is constructed of pressed concrete block and is visible around the building. On the east elevation there are two paired window openings under the first floor windows. All basement windows are currently boarded. The building is clad primarily in stucco and has brick quoining in all the corners. On the south elevation there are three small fixed six pane wood windows with brick surrounds there is also a door and two small windows in the basement level from this elevation. The west elevation has no openings other than a basement level windows. The north elevation has two single six-over-six wood windows that are evenly spaced. Both the north and south elevations have asphalt shingles in the gable ends and large triangular brackets on these ends. The side gable roof has exposed rafter tails.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

This property appears on the 1894, 1902, 1911, 1930 and 1939 Sanborn Maps.

"The Coal Chute of Marceline is a 20-pocket, trestle-type design. It has a 20% incline and serves two tracks. Housed in the hoist house was a double cylinder-hoisting engine. The facility was repaired in 1913, but the introduction of diesel made the structure obsolete." Pg 44 "Tour Guide of Marceline, Missouri Walt Disney's Home Town"

Though there were once dozens, it is estimated that only three coal chutes situated along the Santa Fe Railroad remain. Marceline's coal chute is the only extant main line chute. The chute has a square tower for coal and a round tower for sand.
The coal chute may be eligible under Criterion A for Transportation due to its association with the railroad. It may also be eligible under Criterion C for Engineering due to its "practical application of scientific principles to design, construct, and operate equipment, machinery, and structures to serve human needs," (see page 40, of the National Register Bulletin How to Complete the National Register Registration Form).

Lat/Long: 39.708159, -92.955192

These structures are located in a rail yard south of Marceline. These structures are located between train tracks. This is located across from the city park and the industrial area of Marceline.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

There are two structures on this site. The square structure is the coal chute. This structure is several stories in height, the lower level is composed of columns, the next level has a platform with metal stairs to reach the higher levels. A storage bin is located at about the third level this is a solid square space. Above this is a where the conveyor belt leads the space resembles a house with several windows openings and a door opening. Adjacent to this property, is a concrete pass through that has been infilled with metal siding and overhead doors.

South of the coal chute is a sand storage structure. This property is round and is shorter than the coal chute. It is also constructed of concrete. The sand storage portion is supported by concrete columns supports. This structure also has metal stairs leading to a house type structure at the top of the structure. At ground level there is also a pass through that has been infilled with metal and an overhead door.

Train tracks used to approach these structures these tracks have sense been removed.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The Sanborn Fire Insurance Maps for 1894, 1902, 1911, 1930 and 1939 show a building at this location. There are currently no buildings in this location the area has since been converted into a pocket park.

This park is a modern development and thus lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.714706, -92.951297

This building is located on the main commercial street in Marceline at the intersection of Howell and North Main Street.

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The park has two levels a public park space that is accessible via Main Street and in the rear there is a private park or yard space that appears to be associated with the 105-107 North Main Street/LI-AS-001-38 the rear area is at a lower elevation due to a change in grade and is accessible in the alley behind Main Street. There is a concrete wall that boarders the park on Howell Street and it continues into the alley way.

In the upper park area is a concrete walkway that leads through the landscaped space. There are two benches that are set on concrete pads. There are also three lamp posts that are or were manufactured to appear to be wrought iron with large glass light fixtures. In the rear of the park there is a arched, tiled fountain and a short wood fence that separates the upper from the lower space.

There rears section is bordered by a concrete wall that creates a planter space the wall has large gate posts with wooden doors and a taller wood fence is located along Howell Street creating a private space in the rear garden. Along the rear wall there is a wood pergola and the space appears to have concrete spaces.

ADDITIONAL INFORMATION

21. (CONT.) HISTORY AND SIGNIFICANCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

The E.P. Ripley Park appears on the 1911, 1930 and 1939 Sanborn Maps. On the 1894 and 1902 Sanborn maps, the block that E.P. Ripley Park occupies was occupied with several buildings and a grain elevator.

Though it retains relatively good integrity, this property lacks the significance necessary for individual listing in the National Register. Collectively, this area does not appear to be eligible for listing as a historic district due to an overall loss of integrity, thus this property is noted as not eligible.

22. (CONT.) SOURCES OF INFORMATION. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

Lat/Long: 39.715482, -92.949525

This property is located along the main commercial street in Marceline between Main Street and the railroad tracks and California and Ritchie. The park has mature trees, multiple features and a small building.
1. Building/Bathrooms 2. Basketball/ Tennis Court 3. Locomotive 4. Caboose 5. Well 6. Rock 7. Band shelter
8.Gazebo 9. Central pool and fountain 10. Lake with bridge 11. Veterans memorial and flag pole 12. Benches 13. drinking fountain
14. sidewalks

41. (CONT.) DESCRIPTION OF PRIMARY RESOURCE. EXPAND BOX AS NECESSARY, OR ADD CONTINUATION PAGES.

1. Building constructed c. 1970s it has a metal side gable roof the windows are boarded there is a space under the main roof with picnic tables and bathrooms. 2. Basketball/ Tennis court- are asphalt and surrounded by chain link fencing. 3. Locomotive- Santa Fe 2546 - built 1910 reconstructed 1928 donated to Marceline in 1955 restored in 1998. 4. Caboose- red Santa Fe Caboose that is accessible via a steps. 5. Well- Small wooden well was donated by the girl scouts in 1987 and 2002. 6. Rock- Donated by Chesley and Mary Esther (Oldham) Pope 11,500 lbs. in 1992. 7. Band Shelter- erected by Marceline Fire & Rescue 2011 it has a brick foundation and metal roofing. 8. Gazebo- Thought this appears to be a reconstruction the Sanborn maps show a gazebo in this location since 1911. 9. Central pool and fountain- This a central concrete pool that is accessible via diagonal sidewalks set at each corner. The pool is circular and painted white. 10. Lake- The lake is located in the northeast corner of the park. There is a bridge that crosses the lake and a fountain that circulates water in the Lake. There is also a black granite bench near the lake. 11. Veterans memorial and flag pole. The veterans memorial and flag pole are located on the northwest side of the park and have a list of names it was donated in 1994. The flag pole was donated in 1992. 12. Benches there are a variety of benches along the diagonal walkways. 13. Drinking fountain- concrete located near the center of the park. 14. Sidewalks- concrete and diagonally set from corners.
